PROFESSIONAL SUMMARY

Experienced Frontend Engineer with 5 years of commercial development experience, specialising in React and modern JavaScript frameworks. I've built responsive web applications for fintech startups and established digital agencies, with a particular passion for creating intuitive user interfaces. I'm comfortable working independently or collaborating with larger teams, and I genuinely enjoy mentoring junior developers. Outside of work, I'm an active open-source contributor and regularly speak at local tech meetups in Birmingham.

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, HTML5, CSS3, SCSS

Frameworks and Libraries: React, Vue.js, Next.js, Redux, React Query

Tools and Platforms: Git, Webpack, Babel, Jest, Cypress, Figma, Chrome DevTools

APIs and Services: RESTful APIs, GraphQL, Stripe, Auth0, Firebase

Testing: Unit testing, Integration testing, End-to-End testing

Version Control: GitHub, GitLab, Bitbucket

Other: Responsive Design, Web Performance Optimization, Accessibility (WCAG), Agile/Scrum

WORK EXPERIENCE

Frontend Engineer

Capsule Digital Ltd

Birmingham, United Kingdom

www.capsuledigital.co.uk

March 2022 - Present

Developed and maintained 8 client-facing web applications using React and Next.js for diverse industries including e-commerce, SaaS, and healthcare sectors

Implemented responsive design patterns and improved Core Web Vitals, reducing page load time by 40% across 3 major projects

Led code reviews for a team of 4 junior developers and established coding standards documentation that increased team consistency

Built custom UI component libraries with Storybook, reducing development time by 25% and improving design system adoption across projects

Mid-Level Frontend Developer

DataStream Analytics Inc

Birmingham, United Kingdom

www.datastream-analytics.io

June 2020 - February 2022

Constructed complex data visualization dashboards using React and D3.js for financial sector clients, processing real-time datasets of up to 100,000 data points

Migrated legacy jQuery codebase to modern React architecture across 12 customer-facing pages, improving performance and maintainability

Implemented comprehensive Jest and Cypress test suites achieving 82% code coverage, reducing production bugs by 35%

Collaborated with UX designers and backend engineers to deliver 15 new features and fixed 200+ reported issues during tenure

Junior Frontend Developer

Bright Spark Web Services

London, United Kingdom

www.brightsparkweb.co.uk

July 2019 - May 2020

Developed responsive website templates using HTML5, CSS3, and vanilla JavaScript for small to medium-sized business clients

Assisted senior developers in debugging and optimizing existing codebases, contributing to 30+ bug fixes

Participated in daily standups and sprint planning sessions, learning Agile methodology and best practices

Created reusable CSS utilities and helper functions that standardized development workflow across 5 ongoing projects

EDUCATION

Bachelor of Science in Computer Science

University of Birmingham

Birmingham, United Kingdom

Graduated: June 2019

GITHUB REPOSITORIES

github.com/jamespatterson94/react-dashboard-kit

A customizable dashboard component library built with React, TypeScript, and Tailwind CSS. Includes 20+ reusable components with full Storybook documentation.

github.com/jamespatterson94/expense-tracker-app

Full-stack expense tracking application built with React and Firebase. Features authentication, real-time data sync, and visual analytics with Chart.js.

github.com/jamespatterson94/accessible-form-components

Collection of accessible form components compliant with WCAG 2.1 AA standards. Includes comprehensive test coverage and usage examples.

github.com/jamespatterson94/web-performance-audit-tool

CLI tool for analyzing web performance metrics and generating detailed reports. Built with Node.js and integrated with Lighthouse API.

CERTIFICATIONS AND ACHIEVEMENTS

Google Analytics Certified - March 2021

AWS Certified Cloud Practitioner - September 2022

Speaker at Birmingham Tech Meetup: React Performance Optimization - November 2023
