PROFESSIONAL SUMMARY

I'm a DevOps engineer with seven years in the field, though my career path has taken some unconventional turns that I'm still making sense of. I've worked extensively with Kubernetes, Terraform, and AWS across different roles, and I genuinely enjoy the problem-solving side of infrastructure automation. I prefer working with teams that value pragmatism over ceremony, and I've found that the best deployments happen when you actually understand what's running underneath.

WORK EXPERIENCE

Principal Infrastructure Architect

TechVance Solutions

techvance.io

Manchester, United Kingdom

January 2022 - Present

Directed strategic infrastructure initiatives across enterprise deployments serving 500+ clients globally

Led architectural decisions for company-wide migration from monolithic applications to microservices architecture

Established and mentored team of 12 senior engineers in Kubernetes best practices and GitOps workflows

Managed annual infrastructure budget of 2.3 million GBP with responsibility for vendor negotiations and cost optimization

Graduate DevOps Coordinator

Sterling Digital Ltd

sterlingdigital.co

Manchester, United Kingdom

August 2019 - December 2021

Assisted senior team with deployment automation scripts using Bash and Python

Monitored application performance across staging environments and documented findings

Supported infrastructure team with ticket resolution and on-call rotation duties

Participated in Agile ceremonies and contributed to sprint planning discussions

Junior Platform Engineer

Nexus Cloud Systems

nexuscloud.net

Stockport, United Kingdom

March 2018 - July 2019

Coordinated CI/CD pipeline development supporting 45+ microservices across multiple environments

Oversaw team of 22 platform engineers in implementing company-wide infrastructure standards

Managed Terraform state files and documented infrastructure-as-code patterns for organization

Led incident response procedures during critical production outages affecting 10,000+ concurrent users

EDUCATION

Bachelor of Science in Computer Science

University of Manchester

Manchester, United Kingdom

Graduated: June 2017

Grade: Upper Second Class Honours

TECHNICAL SKILLS

Cloud Platforms: Amazon Web Services (AWS), Azure, Google Cloud Platform

Container Orchestration: Kubernetes, Docker, Docker Swarm

Infrastructure as Code: Terraform, CloudFormation, Ansible

CI/CD Tools: Jenkins, GitLab CI/CD, GitHub Actions, CircleCI

Monitoring and Logging: Prometheus, Grafana, ELK Stack, Datadog

Programming Languages: Python, Bash, Go, YAML

Databases: PostgreSQL, MySQL, MongoDB, Redis

Version Control: Git, GitFlow, GitHub, GitLab

Messaging Queues: RabbitMQ, Apache Kafka, AWS SQS

Networking: VPC configuration, Load Balancing, SSL/TLS, DNS management
