PROFESSIONAL SUMMARY

Results-driven and highly motivated Frontend Engineer with a proven track record of delivering cutting-edge web solutions in fast-paced environments. Passionate about leveraging modern technologies to spearhead innovative user experiences whilst championing cross-functional collaboration. Committed to data-driven decision making and synergistically contributing to organisational objectives through mission-critical project delivery and actionable insights.

WORK EXPERIENCE

Junior Frontend Engineer

Synapse Data Ltd

Glasgow, United Kingdom

January 2024 - Present

Developed and maintained responsive React components for customer-facing applications serving 10000+ monthly active users

Collaborated with UX designers and backend engineers to implement pixel-perfect designs across multiple browser environments

Implemented automated testing using Jest and React Testing Library, increasing code coverage from 45% to 72%

Participated in daily stand-ups and sprint planning ceremonies, contributing to sprint velocity improvements of 15%

Frontend Developer

John Lewis Partnership

johnlewis.com

Glasgow, United Kingdom

August 2023 - December 2023

Built and optimised e-commerce product pages using HTML5, CSS3, and vanilla JavaScript

Debugged and resolved critical frontend performance issues, reducing page load times by 28%

Assisted senior developers with code reviews and contributed to documentation improvements

Developed reusable component libraries that reduced development time for future projects by 20%

Junior Web Developer

Freelance

Remote, United Kingdom

April 2023 - July 2023

Created custom WordPress websites and themes for small business clients

Implemented responsive designs using Bootstrap framework and custom CSS styling

Managed client communications and gathered requirements for web development projects

Deployed and maintained websites on shared hosting platforms with DNS configuration
