WORK EXPERIENCE

BI Analyst

Quantum Analytics Solutions

www.quantumanalytics.io

Edinburgh, United Kingdom

June 2022 - Present

Developed and maintained 15+ interactive Tableau dashboards serving C-suite executives and departmental leads, enabling real-time business monitoring and strategic decision-making capabilities

Designed and implemented ETL pipelines using Talend to automate data integration from 8 disparate source systems, reducing manual data processing time by 12 hours weekly

Collaborated with cross-functional teams including Finance and Marketing to define KPIs and metrics, ensuring alignment with business objectives and stakeholder requirements

Optimized SQL queries and database indexing strategies, improving dashboard refresh performance by 40% and enhancing user experience across the analytics platform

Junior BI Developer

DataViz Solutions Ltd

www.dataviz-solutions.co

Edinburgh, United Kingdom

March 2021 - May 2022

Built Python scripts to automate data quality checks and validation processes, identifying and resolving 200+ data anomalies that would have impacted reporting accuracy

Created Power BI reports for Sales and Operations teams, visualizing KPIs related to pipeline management, revenue forecasting, and inventory optimization

Assisted in migration of legacy reporting infrastructure to cloud-based Azure environment, working closely with senior analysts to ensure zero data loss and minimal downtime

Performed data analysis on customer segmentation datasets using SQL and R, uncovering insights that informed targeted marketing campaigns resulting in 8% increase in conversion rates

Data Analyst

Highland Financial Services

www.highlandfinancial.net

Edinburgh, United Kingdom

August 2019 - February 2021

Extracted and analyzed transaction data using SQL Server to support regulatory compliance reporting and internal audit requirements for financial services operations

Produced weekly and monthly reports in Excel and Google Sheets for stakeholder consumption, communicating complex financial metrics in clear and actionable formats

Supported implementation of Google Analytics tracking across company website and digital properties, establishing baseline metrics and monitoring performance against KPIs

Collaborated with IT and business teams to identify data requirements, design reporting specifications, and deliver analytics solutions that addressed operational pain points

EDUCATION

BSc (Hons) Business Studies with Data Analytics

University of Edinburgh

Edinburgh, United Kingdom

Graduated: June 2019

Grade: 2:1

CERTIFICATIONS AND TRAINING

Microsoft Certified: Data Analyst Associate (Power BI)

Tableau Desktop Specialist Certification

Google Analytics Individual Qualification (IQ)

PUBLIC GITHUB REPOSITORIES

tableau-sales-dashboard-framework

Comprehensive Tableau workbook framework for enterprise sales reporting with sample datasets

python-data-pipeline-tools

Python utility library for building modular ETL pipelines with error handling and logging

sql-query-optimization-guide

Collection of SQL optimization techniques and benchmarking scripts for performance tuning

power-bi-healthcare-analytics

Sample Power BI project demonstrating healthcare KPI reporting and interactive visualizations
