PROFESSIONAL SUMMARY

Results-driven and highly motivated Principal Engineer with a proven track record of spearheading cutting-edge technological initiatives. Passionate about delivering actionable insights through data-driven decision making whilst championing cross-functional collaboration to drive organisational objectives. Leveraging extensive expertise in mission-critical infrastructure and innovative solutions, I am committed to synergistically aligning technical strategy with business goals. Dynamic professional focused on translating complex technical challenges into scalable outcomes that generate measurable value.

WORK EXPERIENCE

Principal Engineer

Nexus Innovations Ltd

nexus-innovations.io

Manchester, United Kingdom

January 2021 - December 2023

Architected and deployed cloud-native microservices infrastructure supporting 2 million daily active users, resulting in 40% reduction in infrastructure costs and improved system reliability to 99.95% uptime

Led cross-functional teams of 12 engineers through complete modernisation of legacy monolithic systems, establishing standardised practices that reduced deployment times by 60%

Designed and implemented comprehensive disaster recovery and business continuity strategies across multiple geographic regions, ensuring compliance with ISO 27001 certification requirements

Mentored 8 junior and mid-level engineers, facilitating their progression to senior roles whilst establishing coding standards and architectural review processes that improved code quality metrics by 35%

Senior Software Architect

CloudTech Solutions plc

cloudtech.com

London, United Kingdom

March 2021 - August 2022

Spearheaded architectural review of production systems managing petabyte-scale data processing, identifying and remediating 23 critical security vulnerabilities before exploitation

Championed adoption of Kubernetes and containerised deployment strategies across the organisation, reducing infrastructure provisioning time from weeks to hours

Established machine learning infrastructure platform enabling data science teams to accelerate model deployment cycles by 70%, directly supporting revenue-generating initiatives

Delivered comprehensive technical documentation and runbooks for 45+ microservices, reducing mean time to resolution for incidents by 45%

Senior Platform Engineer

DataStream Technologies

datastream.net

Manchester, United Kingdom

June 2018 - February 2021

Built and maintained distributed real-time data pipeline processing 500+ billion events annually with sub-second latency requirements, supporting critical business analytics

Implemented comprehensive observability suite utilising Prometheus, ELK stack, and distributed tracing technologies, reducing mean time to detect incidents by 65%

Optimised database query performance across PostgreSQL and Redis clusters, achieving 3x throughput improvement and reducing query latency by 78%

Collaborated with DevOps teams to establish infrastructure-as-code practices using Terraform and Ansible, enabling automated deployment of 200+ infrastructure changes monthly with zero downtime

EDUCATION

MSc Computer Science

University of Manchester

Manchester, United Kingdom

2015 - 2017

BSc Information Technology

University of Leeds

Leeds, United Kingdom

2011 - 2015

TECHNICAL SKILLS

Cloud Platforms: AWS, Azure, Google Cloud Platform, Kubernetes, Docker

Programming Languages: Python, Go, Java, TypeScript, SQL

Data Technologies: Apache Spark, Kafka, PostgreSQL, Redis, Elasticsearch

Infrastructure: Terraform, Ansible, Jenkins, GitLab CI/CD, Infrastructure-as-Code

Distributed Systems: Microservices Architecture, Service Mesh (Istio), gRPC, Event-Driven Architecture

Observability: Prometheus, Grafana, ELK Stack, Datadog, Distributed Tracing

DevOps and Tooling: Linux, Git, Docker, Container Orchestration, Monitoring and Alerting

Security: OAuth 2.0, SSL/TLS, API Security, Identity Management, OWASP Best Practices

CERTIFICATIONS

AWS Solutions Architect Professional

Certified Kubernetes Administrator (CKA)

HashiCorp Certified: Terraform Associate
