PROFESSIONAL SUMMARY

I'm a junior frontend engineer based in Manchester with just over a year of hands-on experience building user interfaces. I genuinely enjoy solving CSS problems and debugging React components, though I still get frustrated when flexbox doesn't cooperate. I'm keen to work with teams that value clear communication and aren't afraid to question why things are done a certain way. Outside of work, I contribute to open-source projects and tinker with side projects that scratch specific itches.

WORK EXPERIENCE

Frontend Developer

TechVision Solutions

Manchester, United Kingdom

www.techvisionsolutions.co

November 2023 - Present

Built responsive web applications using React and TypeScript, focusing on component reusability and performance optimization

Implemented pixel-perfect designs from Figma mockups using CSS modules and Tailwind CSS, ensuring cross-browser compatibility

Collaborated with backend developers to integrate REST APIs and manage application state with Redux Toolkit

Conducted code reviews for peer pull requests and contributed to documenting frontend patterns and best practices

Junior Frontend Engineer

Digital Forge Ltd

Manchester, United Kingdom

www.digitalforge.io

January 2023 - October 2023

Developed and maintained multiple React components for a customer-facing SaaS platform with 50,000+ active users

Fixed critical bugs in production code and improved page load times by optimizing image assets and lazy loading components

Participated in daily standups and sprint planning, communicating blockers early and collaborating with designers on UX improvements

Wrote unit tests using Jest and React Testing Library, achieving 75% code coverage on new features

Junior Web Developer

StartUp Hub Manchester

Manchester, United Kingdom

September 2022 - April 2023

Created interactive web pages using HTML5, CSS3, and vanilla JavaScript for small business clients

Assisted senior developers in refactoring legacy jQuery code to modern ES6 standards and Vue.js components

Debugged browser compatibility issues and tested responsive designs across multiple devices and screen sizes

Learned version control workflows using Git and GitHub, submitting pull requests and responding to feedback from team leads

EDUCATION

Bachelor of Science in Computer Science

University of Manchester

Manchester, United Kingdom

Graduated: June 2022

Grade: 2:1

TECHNICAL SKILLS

Languages: JavaScript, HTML5, CSS3, TypeScript

Frameworks and Libraries: React, Vue.js, Tailwind CSS

Tools and Platforms: Git, GitHub, VS Code, Figma, Chrome DevTools

Testing: Jest, React Testing Library

Version Control: Git, GitHub

Other: REST APIs, Redux Toolkit, CSS Modules, Responsive Design

PUBLIC REPOSITORIES

react-weather-app: A weather forecast application built with React, consuming data from OpenWeatherMap API with location search functionality

todo-list-typescript: A TypeScript-based task management application demonstrating component composition and state management patterns

css-animation-library: A collection of reusable CSS animations and transitions with documentation for common UI patterns

portfolio-website: Personal portfolio website showcasing projects and blog posts, built with Next.js and deployed on Vercel
