PROFESSIONAL SUMMARY

Experienced Senior Frontend Engineer with 8 years of progressive experience building scalable web applications and leading frontend teams. I've spent the last half-decade focusing on performance optimisation and component architecture, working across fintech and e-commerce sectors. I'm genuinely interested in mentoring junior developers and enjoy the challenge of translating complex design systems into maintainable code. Outside of work, I contribute to open source projects and run a small blog about React patterns.

WORK EXPERIENCE

Senior Frontend Engineer

Barclays Bank UK plc

https://www.barclays.co.uk

Birmingham, United Kingdom

March 2021 - Present

Led frontend architecture decisions for customer-facing digital banking applications serving 2 million+ users

Implemented performance improvements that reduced initial load time by 45% through code splitting and lazy loading strategies

Mentored 4 junior frontend developers and established code review standards across the team

Drove migration of legacy AngularJS codebase to React, completing 60% of the project ahead of schedule

Frontend Engineer

Nexus Digital Co

https://www.nexus-digital.io

Coventry, United Kingdom

January 2019 - February 2021

Developed responsive user interfaces for SaaS analytics platform using React and TypeScript

Built custom UI component library with Storybook, reducing development time by 35% across product teams

Collaborated with UX designers to implement pixel-perfect designs and conduct accessibility audits

Optimised Redux state management implementation, improving application runtime performance by 28%

Frontend Developer

Marks and Spencer plc

https://www.marksandspencer.com

London, United Kingdom

June 2016 - December 2018

Developed and maintained e-commerce product pages handling 50,000+ daily transactions

Implemented responsive design patterns for mobile-first platform using CSS Grid and Flexbox

Debugged complex cross-browser compatibility issues and created testing protocols for QA teams

Contributed to A/B testing framework that improved checkout conversion rate by 12%

EDUCATION

BSc Computer Science

University of Birmingham

Birmingham, United Kingdom

2012 - 2015

TECHNICAL SKILLS

Frontend Frameworks and Libraries: React, Vue.js, Next.js, Angular

Programming Languages: JavaScript, TypeScript, HTML5, CSS3, SCSS

State Management: Redux, Context API, MobX

Testing: Jest, React Testing Library, Cypress, Enzyme

Build Tools and Bundlers: Webpack, Vite, Parcel

Version Control: Git, GitHub, GitLab

Performance Tools: Lighthouse, WebPageTest, Chrome DevTools

Accessibility: WCAG 2.1, Axe DevTools

APIs and Protocols: REST, GraphQL, WebSockets

UI Libraries: Material-UI, Tailwind CSS, Bootstrap, Ant Design
