PROFESSIONAL SUMMARY

Frontend engineer based in Bristol with a passion for building clean, responsive web interfaces. Recently completed a bootcamp and secured my first role working with React and modern JavaScript. I'm eager to develop my skills further and contribute to meaningful projects. I enjoy problem-solving and collaborating with team members to deliver features that users actually enjoy using.

TECHNICAL SKILLS

Languages: JavaScript, HTML, CSS, TypeScript

Frameworks and Libraries: React, Next.js, Vue.js

Tools and Technologies: Git, Webpack, npm, VS Code, Figma

Databases: MongoDB, Firebase

Other: REST APIs, Responsive Design, Agile/Scrum, Testing Libraries

WORK EXPERIENCE

Junior Frontend Developer

TechFlow Solutions Ltd

techflow.io

Bristol, United Kingdom

June 2023 - Present

Developed and maintained React components for customer-facing web applications used by over 500 clients

Collaborated with UX designers to implement pixel-perfect designs and improve overall user experience across the platform

Debugged and resolved browser compatibility issues, resulting in improved performance across Chrome, Firefox, and Safari

Participated in daily stand-ups and sprint planning sessions, contributing to a team of 6 developers working on agile sprints

Frontend Developer Intern

DigitalMind Studio

digitalmind.co

Bristol, United Kingdom

February 2023 - May 2023

Assisted senior developers in building interactive UI components using React and JavaScript for various client projects

Wrote responsive CSS layouts for mobile, tablet, and desktop viewports, ensuring consistent user experience across devices

Fixed bugs reported by QA team and implemented feature enhancements based on user feedback

Completed online courses in TypeScript and Next.js to expand technical knowledge outside of daily responsibilities

Web Development Trainee

Code Academy Bristol

codeacademy-bristol.net

Bristol, United Kingdom

September 2022 - January 2023

Built 5 full-stack web projects from scratch using HTML, CSS, JavaScript, and React during intensive 16-week bootcamp

Created a personal portfolio website showcasing 3 React projects with deployed versions on GitHub Pages and Vercel

Learned version control with Git and GitHub, collaborating with peers on group projects using pull requests and code reviews

Mentored 2 junior trainees who joined the program later, helping them understand JavaScript fundamentals and React concepts

EDUCATION

Bachelor of Science in Computer Science

University of Bristol

Bristol, United Kingdom

Graduated: June 2022

GITHUB REPOSITORIES

Portfolio Website

github.com/alexjpatterson/portfolio-website

Personal portfolio built with React, showcasing projects and technical skills with responsive design

Task Management App

github.com/alexjpatterson/task-manager

React application with local storage functionality, allowing users to create, edit, and organize daily tasks

Weather Dashboard

github.com/alexjpatterson/weather-dashboard

Interactive weather app consuming OpenWeatherMap API, displaying real-time data with location search feature

E-commerce Product Filters

github.com/alexjpatterson/ecommerce-filters

React component library for filtering products by category, price, and rating with performance optimization
