PROFESSIONAL SUMMARY

I'm a junior frontend engineer based in Cambridge with one year of professional experience building user interfaces for web applications. I've worked across multiple small teams where I learned to write clean React code and collaborate with designers and backend developers. I'm particularly interested in improving user experience through thoughtful interface design and I enjoy debugging complex problems in the browser.

TECHNICAL SKILLS

JavaScript, React, HTML5, CSS3, Vue.js, Git, REST APIs, Responsive Design, DOM Manipulation, JSON, NPM, Webpack, Figma Collaboration, Chrome DevTools, MySQL basics, Agile Methodologies

WORK EXPERIENCE

Junior Frontend Engineer

TechVision Solutions

techvisionsolutions.io

Cambridge, United Kingdom

March 2023 - Present

Developed and maintained React components for a SaaS dashboard used by over 500 customers across Europe

Implemented responsive CSS layouts for mobile and desktop viewports, reducing layout shift issues by 40%

Collaborated with the design team using Figma to implement pixel-perfect UI components and gather feedback before merging to production

Debugged browser compatibility issues across Chrome, Firefox, and Safari, documenting solutions in our team wiki

Frontend Developer Intern

Digital Canvas Ltd

Cambridge, United Kingdom

September 2022 - February 2023

Built interactive webpage components using vanilla JavaScript and jQuery for an e-commerce platform

Fixed CSS bugs and improved page load performance by optimizing image assets and reducing stylesheet sizes

Wrote semantic HTML markup for accessibility compliance and worked with QA to identify rendering issues

Participated in daily stand-ups and sprint planning meetings to understand development workflows and project timelines

Web Development Support

Cambridge Digital Services

www.cambridgedigitalservices.co.uk

Cambridge, United Kingdom

June 2022 - August 2022

Assisted senior developers in updating legacy HTML and CSS across various client websites

Tested web applications in multiple browsers and documented bugs using Jira with clear reproduction steps

Updated website content and fixed broken links following instructions from project managers

Gained experience with Git version control, making small commits and learning code review practices

EDUCATION

Bachelor of Science in Computer Science

University of Cambridge

Cambridge, United Kingdom

2019 - 2022

Relevant Coursework: Web Development, Object-Oriented Programming, Software Engineering, Data Structures, Human-Computer Interaction
