## PROFESSIONAL SUMMARY

I'm a Machine Learning Engineer with 2 years of hands-on experience building and deploying ML models in production environments. I have a strong foundation in Python and data manipulation, with particular interest in computer vision and time series forecasting. I'm looking to deepen my expertise while contributing to projects that solve real-world problems using machine learning.

## WORK EXPERIENCE

Machine Learning Engineer

DataViz Solutions

www.dataviz-solutions.io

Edinburgh, United Kingdom

March 2023 - Present

Developed and deployed 3 machine learning models for predictive analytics that improved forecast accuracy by 18% for retail clients

Built data preprocessing pipelines using pandas and numpy to clean and transform datasets containing over 50 million records

Collaborated with backend engineers to integrate trained models into REST APIs, handling model serialization with joblib and pickle

Created documentation and unit tests for ML workflows, ensuring reproducibility across team members and reducing debugging time by 30%

Junior Data Scientist

CloudMetrics Ltd

www.cloudmetrics.co

Edinburgh, United Kingdom

June 2022 - February 2023

Trained and evaluated classification models using scikit-learn, achieving 92% accuracy on customer churn prediction tasks

Conducted exploratory data analysis on time series datasets and generated insights using matplotlib and seaborn visualizations

Participated in code reviews and pair programming sessions with senior engineers to improve code quality and best practices

Automated monthly reporting processes by developing Python scripts that reduced manual work by 12 hours per cycle

Data Engineering Intern

TechCore Analytics

www.techcore-analytics.net

Edinburgh, United Kingdom

August 2021 - May 2022

Assisted in building ETL pipelines using Python and SQL to aggregate data from multiple sources for machine learning teams

Performed feature engineering on structured datasets, creating over 40 new features that improved model performance

Participated in daily standups and documented technical solutions in confluence for team knowledge sharing

Supported production monitoring tasks and helped investigate model drift issues affecting 2 active services

## EDUCATION

MSc Artificial Intelligence

University of Edinburgh

Edinburgh, United Kingdom

2019 - 2021

BSc Computer Science

University of Manchester

Manchester, United Kingdom

2016 - 2019

## TECHNICAL SKILLS

Programming Languages: Python, SQL, JavaScript

Machine Learning Frameworks: scikit-learn, TensorFlow, PyTorch

Data Tools: pandas, numpy, matplotlib, seaborn, Jupyter Notebook

Data Formats: CSV, JSON, Parquet, HDF5

Databases: PostgreSQL, MongoDB

Version Control: Git, GitHub

Cloud Platforms: AWS S3, Google Colab

Other: Model evaluation, feature engineering, data visualization, REST APIs

## CERTIFICATIONS

AWS Certified Cloud Practitioner - 2022

Google Cloud Associate Cloud Engineer - 2023
