PROFESSIONAL SUMMARY

Results-driven Data Scientist with 5 years of experience building machine learning models and delivering data-driven solutions across fintech and e-commerce sectors. Skilled in translating complex business problems into analytical frameworks and communicating insights to non-technical stakeholders. Passionate about leveraging Python and statistical methods to optimize business processes and improve decision-making. Strong track record of collaborating with cross-functional teams in fast-paced environments.

WORK EXPERIENCE

Senior Data Scientist

TechVenture Analytics

Berlin, Germany

<https://techventure-analytics.io>

March 2022 - Present

Developed and deployed 8 machine learning models in production using Python and scikit-learn, resulting in 35% improvement in customer churn prediction accuracy for Fortune 500 clients

Led end-to-end data pipeline construction using SQL and Apache Spark to process 2TB+ of daily transaction data across distributed systems

Mentored 2 junior data scientists on best practices in exploratory data analysis and model validation techniques

Presented quarterly business intelligence dashboards to C-level executives using Tableau, influencing marketing budget allocation decisions worth 1.2M EUR

Data Scientist

FinanceFlow Solutions

<https://financeflow-solutions.net>

Berlin, Germany

November 2019 - February 2022

Built predictive models for credit risk assessment using logistic regression and gradient boosting, reducing loan default rates by 18%

Implemented automated reporting system using Python and pandas that reduced manual data compilation time by 12 hours per week

Conducted A/B testing on 15+ machine learning model variations and statistical significance analysis to optimize fraud detection accuracy

Collaborated with product and engineering teams to translate model requirements into actionable technical specifications and deployment pipelines

Junior Data Analyst

ConsumerInsights GmbH

<https://consumerinsights.co>

Berlin, Germany

July 2018 - October 2019

Analyzed customer behavior datasets using Python and SQL to identify market trends and segment user populations for targeted marketing campaigns

Created 25+ data visualizations using Matplotlib and Seaborn to communicate statistical findings to business stakeholders

Performed data cleaning and preprocessing on raw datasets containing missing values and outliers, improving data quality by 40%

Supported senior analysts in building time series forecasting models for inventory optimization across 8 warehouse locations

EDUCATION

Master of Science in Data Science and Business Analytics

Humboldt University of Berlin

Berlin, Germany

2016 - 2018

Bachelor of Science in Mathematics

Technical University of Munich (TUM)

Munich, Germany

2012 - 2016

TECHNICAL SKILLS

Programming Languages: Python, R, SQL, Java

Machine Learning Frameworks: scikit-learn, TensorFlow, XGBoost, LightGBM

Data Processing and Analysis: pandas, NumPy, Spark, Hadoop

Data Visualization: Tableau, Matplotlib, Seaborn, Plotly

Databases: PostgreSQL, MySQL, MongoDB

Cloud Platforms: AWS, Google Cloud Platform

DevOps and Infrastructure: Kubernetes, Terraform, ArgoCD, Docker

Statistical Methods: Hypothesis testing, A/B testing, regression analysis, time series analysis

Version Control: Git, GitHub

CERTIFICATIONS

AWS Certified Machine Learning Specialist - 2021

Google Cloud Professional Data Engineer - 2020

LANGUAGES

German: Native

English: Fluent

Spanish: Intermediate
