PROFESSIONAL SUMMARY

Results-driven Senior Frontend Engineer with 6 years of experience building scalable web applications and leading frontend development initiatives. Proven expertise in modern JavaScript frameworks, responsive design, and performance optimization. Passionate about mentoring junior developers and collaborating with cross-functional teams to deliver user-centric solutions. Strong track record of improving application performance and user experience across high-traffic platforms.

WORK EXPERIENCE

Senior Frontend Engineer

Synapse Data Ltd

Birmingham, United Kingdom

synapsedataltd.io

March 2023 - Present

Led the migration of a legacy Angular application to React, improving page load times by 45% and reducing bundle size by 35%.

Architected and implemented a reusable component library using TypeScript and Storybook, adopted across 5 product teams and reducing development time by 25%.

Mentored 3 junior frontend engineers, conducting code reviews and establishing best practices for CSS-in-JS and state management patterns.

Implemented comprehensive E2E testing strategy using Cypress, increasing test coverage from 40% to 78% and reducing production bugs by 30%.

Frontend Engineer (Senior)

Wyzant

Manchester, United Kingdom

wyzant.com

July 2021 - February 2023

Developed and maintained customer-facing features for online tutoring platform serving 500K monthly active users, using React, Redux, and TypeScript.

Optimized critical rendering paths and implemented lazy loading for educational content, reducing initial load time from 4.2s to 1.8s across mobile devices.

Collaborated with UX designers to implement accessible interfaces meeting WCAG 2.1 AA standards, improving platform accessibility score from 72 to 94.

Led weekly frontend architecture discussions with engineering leads to evaluate new tools and technologies, resulting in adoption of Vite as build tool and 50% reduction in development build times.

Junior to Mid-Level Frontend Engineer

Boohoo Group

Leicester, United Kingdom

boohoogroup.com

September 2018 - June 2021

Built responsive product pages and checkout flows for fast-fashion e-commerce platform generating 200 million annual transactions, using Vue.js and Vuex.

Implemented automated performance monitoring and error tracking using Sentry and Google Lighthouse, identifying and resolving 60+ performance issues annually.

Participated in Agile sprint planning and daily standups, consistently delivering assigned tasks on schedule and maintaining 98% code review approval rate.

Collaborated with backend engineers via REST APIs and GraphQL endpoints, successfully delivering 15+ feature releases during tenure.

EDUCATION

Bachelor of Science in Computer Science

University of Birmingham

Birmingham, United Kingdom

Graduated: June 2018

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, HTML5, CSS3, SCSS

Frameworks and Libraries: React, Vue.js, Angular, Next.js, Express.js

State Management: Redux, Vuex, Context API, Zustand

Testing: Jest, Vitest, React Testing Library, Cypress, Enzyme

Build Tools: Webpack, Vite, Parcel, Babel

Version Control: Git, GitHub, GitLab, Bitbucket

Design Tools: Figma, Adobe XD

Performance Tools: Lighthouse, WebPageTest, Chrome DevTools, Sentry

CSS Frameworks: Tailwind CSS, Bootstrap, Material-UI, Ant Design

APIs: REST, GraphQL, WebSockets

Accessibility: WCAG 2.1, ARIA, axe DevTools

Other: Agile Scrum, Responsive Design, SEO Optimization, Cross-browser Testing
