PROFESSIONAL SUMMARY

Junior DevOps Engineer with 1 year of hands-on experience in cloud infrastructure, containerization, and CI/CD pipeline development. Passionate about automation and infrastructure-as-code principles. Quick learner with a strong foundation in Linux systems and cloud technologies. Seeking to contribute to scalable infrastructure projects while continuously expanding DevOps expertise.

WORK EXPERIENCE

DevOps Engineer

Nexus Cloud Solutions

nexuscloud.io

Lisbon, Portugal

November 2023 - Present

Designed and deployed containerized applications using Docker and Kubernetes across staging and production environments

Implemented CI/CD pipelines using GitHub Actions to automate testing and deployment workflows

Managed AWS infrastructure including EC2 instances, S3 buckets, and RDS databases with Infrastructure-as-Code using Terraform

Monitored system performance and logs using Prometheus and Grafana, reducing incident response time by 35%

Infrastructure Associate

TechVista Solutions (Previously known as Cloud Innovations Portugal)

www.techvista.pt

Lisbon, Portugal

June 2023 - September 2023

Assisted in provisioning and configuration of cloud resources on Microsoft Azure platform

Supported the deployment of microservices using Docker containers in development environments

Created automated backup solutions using shell scripts to reduce manual operational overhead

Collaborated with senior engineers to implement monitoring solutions and troubleshoot infrastructure issues

Junior Systems Administrator

DataFlow Innovations

dataflow-innovations.net

Lisbon, Portugal

January 2023 - August 2023

Maintained and troubleshoot Linux-based servers running production workloads

Implemented dbt data transformation workflows to optimize ETL processes and improve data pipeline efficiency

Managed user access controls and security patches across multiple systems

Documented system configurations and created runbooks for common operational procedures

EDUCATION

Bachelor of Science in Computer Science and Engineering

Instituto Superior Tecnico, Universidade de Lisboa

Lisbon, Portugal

Graduated: June 2022

GPA: 3.7/4.0

TECHNICAL SKILLS

Cloud Platforms: Amazon Web Services (AWS), Microsoft Azure

Container Technologies: Docker, Kubernetes

Infrastructure-as-Code: Terraform, Ansible

CI/CD Tools: GitHub Actions, Jenkins

Scripting Languages: Bash, Python

Databases: PostgreSQL, MySQL, MongoDB

Monitoring and Logging: Prometheus, Grafana, ELK Stack

Operating Systems: Linux (Ubuntu, CentOS), Windows Server

Version Control: Git

Networking Fundamentals: TCP/IP, DNS, Load Balancing

CERTIFICATIONS

AWS Certified Cloud Practitioner

Completed: March 2023
