PROFESSIONAL SUMMARY

Results-driven and highly motivated Full Stack Engineer with a proven track record of spearheading cutting-edge solutions that deliver actionable insights and drive organisational objectives. Passionate about leveraging innovative technologies to champion cross-functional collaboration and synergistically enhance mission-critical systems through data-driven decision making. Dynamic professional committed to fostering organisational growth whilst maintaining a commitment to excellence and inspiring teams to achieve their fullest potential.

WORK EXPERIENCE

Senior Full Stack Engineer

TechVenture Solutions

techventure.io

Dublin, Ireland

July 2022 - Present

Architected and deployed microservices-based applications using Node.js and React, resulting in 40% improvement in system performance and user experience across 50,000+ daily active users

Implemented automated CI/CD pipelines utilising Docker, Kubernetes, and GitHub Actions to reduce deployment time from 2 hours to 15 minutes, enabling rapid iteration and faster time-to-market

Led cross-functional collaboration between backend and frontend teams to redesign critical payment processing module, increasing transaction success rate by 35% and reducing payment failures

Mentored junior developers on full stack best practices, TypeScript implementation, and cloud architecture patterns, fostering a culture of continuous learning and technical excellence

Full Stack Developer

DataFlow Systems Ltd

dataflow.net

Dublin, Ireland

March 2020 - June 2022

Developed and maintained full stack web applications using React, Node.js, and PostgreSQL, supporting core business operations across three product lines

Implemented advanced data transformation pipelines utilising dbt and Apache Spark, enabling real-time analytics and reducing data processing time by 50%

Integrated third-party APIs including Stripe, SendGrid, and Twilio to enhance product functionality and improve customer engagement metrics by 25%

Optimised database queries and implemented Redis caching strategies, reducing average API response times from 800ms to 200ms and improving overall system reliability

Junior Full Stack Developer

InnovateTech Ltd

innovatetech.co

Cork, Ireland

September 2019 - February 2020

Built responsive web interfaces using HTML5, CSS3, and vanilla JavaScript, ensuring cross-browser compatibility and accessibility compliance standards

Developed RESTful APIs using Python Flask framework to support mobile and web applications serving 10,000+ monthly users

Collaborated with product and design teams to translate user requirements into technical specifications and iterative development cycles

Participated in code reviews, debugging sessions, and knowledge sharing sessions to enhance team capabilities and code quality standards

EDUCATION

Bachelor of Science in Computer Science

University College Dublin (UCD)

Dublin, Ireland

Graduated: May 2019

TECHNICAL SKILLS

Frontend: React, Vue.js, HTML5, CSS3, JavaScript, TypeScript, Material-UI, Tailwind CSS
