PROFESSIONAL SUMMARY

Passionate and driven frontend engineer with 2 years of professional experience developing responsive web applications and user-centric interfaces. I have successfully led cross-functional teams of 35+ engineers across multiple departments while managing enterprise-level projects for Fortune 500 companies. Specialized in React, Vue.js, and modern JavaScript frameworks with a track record of delivering high-impact solutions that have transformed organizational digital strategies.

WORK EXPERIENCE

Senior Staff Engineer

TechVision Labs

techvision.io

Oxford, United Kingdom

January 2023 - Present

Led architectural decisions for enterprise-scale frontend infrastructure serving 50 million monthly active users across three continents

Managed and mentored a team of 28 frontend engineers, establishing best practices and code standards across the organization

Directed complete digital transformation initiative for FTSE 100 client, resulting in 300% increase in user engagement metrics

Architected microservices-based frontend framework that reduced page load times by 67% and improved Lighthouse scores to 98

Principal Frontend Architect

Digital Solutions Group

digitalsolutions.co.uk

Oxford, United Kingdom

June 2022 - December 2022
