PROFESSIONAL SUMMARY

Results-driven and highly motivated data analyst with a passion for leveraging cutting-edge analytics tools to spearhead actionable insights and champion data-driven decision making. Proven track record in synergistically collaborating across cross-functional teams to deliver mission-critical solutions that drive organisational objectives. Dynamic and innovative professional committed to providing value through advanced analytical techniques and transforming complex datasets into strategic intelligence for organisational success.

TECHNICAL SKILLS

Data Analysis and Visualisation: Tableau, Power BI, Excel

Programming Languages: Python, SQL, R

Database Management: MySQL, PostgreSQL

Data Manipulation: Pandas, NumPy

Statistical Analysis: Hypothesis testing, Regression analysis

Tools and Platforms: Google Analytics, Azure, Jira

Other Skills: Data cleaning, ETL processes, Dashboard development, Report writing

WORK EXPERIENCE

Data Analyst

Synapse Data Ltd

Edinburgh, United Kingdom

www.synapsedata.io

June 2023 - Present

Analysed large-scale datasets using SQL and Python to identify trends and patterns that informed strategic business decisions for key stakeholders.

Developed interactive Tableau dashboards to visualise KPIs and financial metrics, reducing report generation time by 35 percent.

Collaborated with cross-functional teams to gather requirements and translate business needs into data specifications and analytical solutions.

Performed data cleaning and quality assurance checks on datasets containing over 500,000 records to ensure accuracy and integrity.

Junior Data Analyst

Tesco PLC

www.tesco.com

Edinburgh, United Kingdom

September 2022 - May 2023

Supported senior analysts in extracting and transforming data from multiple sources using SQL and Python for retail performance analysis.

Created weekly performance reports using Power BI to track sales metrics, inventory levels, and customer engagement across store locations.

Assisted in designing and implementing ETL processes to automate data pipeline operations and improve data accessibility for downstream users.

Conducted exploratory data analysis on customer transaction data to uncover purchasing patterns and provide recommendations for targeted marketing campaigns.

Data Analyst Intern

Scottish Enterprise

www.scottish-enterprise.com

Edinburgh, United Kingdom

January 2022 - August 2022

Processed and analysed datasets related to business funding applications and economic development initiatives using Excel and Google Analytics.

Generated monthly reports summarising key metrics and trends for presentation to management and external stakeholders.

Assisted in data validation and verification procedures to maintain data quality standards across organisational systems.

Supported the analytics team in exploratory analysis projects and contributed to process improvement recommendations for data management workflows.

EDUCATION

BSc Business Analytics

University of Edinburgh

Edinburgh, United Kingdom

Graduated: June 2022

Grade: 2:1
