PROFESSIONAL SUMMARY

Experienced Frontend Engineer with 5 years of commercial experience building responsive, user-centric web applications. Proficient in modern JavaScript frameworks and committed to writing clean, maintainable code. Strong track record of delivering features on time and collaborating effectively with cross-functional teams. Passionate about improving user experience and staying current with industry best practices.

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, HTML5, CSS3, Python

Frontend Frameworks: React, Vue.js, Next.js, Angular

State Management: Redux, Context API, Vuex

Tools and Build Systems: Webpack, Vite, Gulp, npm, Yarn

CSS Preprocessors: SASS, LESS, Tailwind CSS

Testing: Jest, Mocha, Chai, React Testing Library

Version Control: Git, GitHub, GitLab, Bitbucket

API Integration: REST, GraphQL, Axios, Fetch API

Performance Optimization: Lighthouse, Chrome DevTools, Code Splitting

Accessibility: WCAG 2.1, ARIA, Semantic HTML

WORK EXPERIENCE

Frontend Engineer

Synapse Data Ltd

Liverpool, United Kingdom

synapsedataltd.io

January 2023 - Present

Developed and maintained 8+ React-based components used across 5 internal products, improving code reusability by 40 percent through component library standardization.

Optimized application performance by implementing code splitting and lazy loading, reducing initial bundle size from 850KB to 340KB and improving Lighthouse score from 62 to 89.

Led migration of legacy jQuery codebase to modern React architecture over 6-month period, mentoring 2 junior developers and establishing coding standards.

Collaborated with UX team to implement accessible interfaces meeting WCAG 2.1 AA standards, resulting in improved user satisfaction scores.

Mid-Level Frontend Developer

Rightmove plc

Liverpool, United Kingdom

rightmove.co.uk

July 2021 - December 2022

Built responsive property listing pages using React and TypeScript, serving over 2 million monthly users and achieving 99.9 percent uptime.

Implemented comprehensive unit and integration tests using Jest and React Testing Library, increasing code coverage from 45 percent to 78 percent.

Optimized GraphQL queries and implemented caching strategies, reducing average API response time by 35 percent and improving user experience.

Participated in agile ceremonies and sprint planning, delivering 40+ features across 8 two-week sprints with zero critical production incidents.

Junior Frontend Developer

CloudPeak Technologies Ltd

Manchester, United Kingdom

cloudpeak-tech.co

June 2019 - June 2021

Developed user interface features for e-commerce platform using Vue.js and SASS, contributing to 15 percent increase in conversion rates.

Fixed 120+ bugs across the application and implemented automated regression testing to prevent similar issues in future releases.

Created responsive CSS layouts using Flexbox and CSS Grid, ensuring pixel-perfect designs across Chrome, Firefox, Safari and Edge browsers.

Assisted in refactoring legacy code and documented API endpoints, reducing onboarding time for new team members by 2 weeks.

EDUCATION

BSc Computer Science

University of Manchester

Manchester, United Kingdom

Graduated: June 2019

Grade: 2:1

PROJECTS AND REPOSITORIES

github.com/jamesmitchell87/react-dashboard-kit

React component library featuring 25+ reusable UI components with Storybook documentation and full TypeScript support.

github.com/jamesmitchell87/performance-monitor

Real-time web application performance monitoring tool built with Next.js and Chart.js, tracking metrics across multiple environments.

github.com/jamesmitchell87/accessible-forms

Comprehensive form validation library with WCAG 2.1 compliance, supporting 12+ field types and custom error handling.

github.com/jamesmitchell87/image-optimization-webpack

Webpack plugin for automatic image optimization and responsive image generation during build process.
