PROFESSIONAL SUMMARY

I'm a junior full stack engineer based in Stockholm with a passion for building web applications that solve real problems. I have experience working with modern JavaScript frameworks, backend services, and database design across multiple projects. I'm eager to continue growing my technical skills while contributing meaningfully to development teams. I thrive in collaborative environments and am committed to writing clean, maintainable code.

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, Python, HTML, CSS

Frontend: React, Vue.js, Next.js, Tailwind CSS

Backend: Node.js, Express, Django, REST APIs

Databases: PostgreSQL, MongoDB, Firebase

Tools & Platforms: Git, GitHub, Docker, VS Code, Figma

Other: Agile/Scrum, Linux, AWS basics, GraphQL

WORK EXPERIENCE

Full Stack Developer

Nexus Digital Solutions

Stockholm, Sweden

nexusdigital.io

January 2024 - Present

Developed and maintained React-based user interfaces for a SaaS platform serving over 5000 active users with TypeScript for improved type safety and developer experience

Implemented backend REST APIs using Node.js and Express to support mobile and web clients, handling authentication and data validation

Designed and optimized PostgreSQL database schemas resulting in 40% improvement in query performance for reporting features

Collaborated with product and design teams in two-week sprints to deliver features, bug fixes, and performance improvements

Junior Backend Developer

TechCore AB

Stockholm, Sweden

techcore.se (Previously known as CloudBase Technologies)

September 2023 - December 2024

Built microservices using Node.js and Express for a distributed system handling real-time data processing and analytics

Created comprehensive API documentation and implemented automated testing with Jest achieving 75% code coverage for critical services

Worked with MongoDB to design flexible data models supporting various customer requirements and scaling needs

Participated in code reviews, debugging production issues, and contributing to technical documentation and best practices

Web Developer Intern

Innovation Studio

Stockholm, Sweden

innovationstudio.net

June 2023 - August 2023

Built responsive web pages using HTML, CSS, and JavaScript while working on a team of five developers

Integrated third-party APIs and payment processing systems to enable e-commerce functionality for client projects

Fixed bugs and optimized loading times by implementing lazy loading and image optimization techniques

Assisted senior developers in migrating legacy jQuery code to modern React components

EDUCATION

Bachelor of Science in Computer Science

KTH Royal Institute of Technology

Stockholm, Sweden

Graduated: June 2023

Relevant Coursework: Web Development, Database Systems, Software Engineering, Data Structures, Algorithm Design

PUBLIC REPOSITORIES

github.com/abergstrom/weather-dashboard - React weather application with real-time data, TypeScript, and Tailwind CSS styling

github.com/abergstrom/task-manager-api - Express.js REST API with PostgreSQL and JWT authentication

github.com/abergstrom/ecommerce-frontend - Next.js e-commerce platform with Stripe integration and responsive design

github.com/abergstrom/code-snippets - Collection of utility functions and solutions for common JavaScript problems

CERTIFICATIONS & TRAINING

AWS Certified Cloud Practitioner (In progress)

Google Cloud Skills Boost - Web Application Development Track (Completed 2023)

LANGUAGES

Swedish (Native)

English (Fluent)
