PROFESSIONAL SUMMARY

Visionary Staff Engineer with 12 years of transformative experience architecting and delivering large-scale distributed systems. Passionate about building resilient infrastructure and mentoring engineers to solve complex technical challenges. I thrive at the intersection of system design and organisational impact, driving technical excellence across multiple domains. Known for my collaborative approach to solving impossible problems and my ability to translate business requirements into elegant technical solutions.

WORK EXPERIENCE

Principal Cloud Architect

Vertex Solutions Ltd

<https://www.vertexsolutions.io>

Manchester, United Kingdom

March 2023 - Present

Architected and led the design of a globally distributed cloud infrastructure supporting 500 million daily transactions across 12 data centres

Managed and mentored a team of 45 engineers across infrastructure, platform, and DevOps disciplines, establishing technical standards and best practices

Drove the complete migration of legacy monolithic systems to Kubernetes microservices, resulting in 60% reduction in operational costs

Established architectural governance frameworks and technology selection processes for the entire organisation

Junior Software Engineer

TechCore Analytics

<https://www.techcore-analytics.co>

Leeds, United Kingdom

June 2021 - February 2023

Developed RESTful APIs for internal data processing pipelines using Python and FastAPI frameworks

Contributed to bug fixes and feature implementations across the backend services team

Participated in code reviews and assisted senior engineers with system troubleshooting

Created automated testing suites that improved code coverage from 45% to 72%

Graduate Software Developer

DataStream Innovations Ltd

<https://www.datastream-innovations.net>

Birmingham, United Kingdom

July 2012 - May 2021

Designed and implemented real-time streaming data platform processing over 1 terabyte of data daily using Apache Kafka and Spark

Led the architectural redesign of core payment processing systems, working with Chief Technology Officer to define technical strategy

Managed direct reports and mentored 25 junior developers, conducting performance reviews and career development planning

Spearheaded the adoption of containerisation and orchestration technologies, reducing deployment times by 75%

EDUCATION

Bachelor of Science in Computer Science

University of Manchester

Graduated: June 2012

Grade: 2:1 Upper Second Class Honours

TECHNICAL SKILLS

Languages: Python, Go, Java, C++, JavaScript, TypeScript, Rust, SQL

Cloud Platforms: AWS, Google Cloud Platform, Microsoft Azure

Kubernetes and Container Technologies: Docker, Kubernetes, Helm, Docker Compose

Databases: PostgreSQL, MySQL, MongoDB, Cassandra, Redis, DynamoDB

Messaging and Streaming: Apache Kafka, RabbitMQ, Apache Spark, Flink

Infrastructure as Code: Terraform, CloudFormation, Ansible

Monitoring and Observability: Prometheus, Grafana, ELK Stack, Datadog

CI/CD and DevOps: Jenkins, GitLab CI, GitHub Actions, ArgoCD

System Design: Distributed systems, microservices architecture, event-driven design

Leadership: Team management, technical mentoring, architectural governance, strategic planning

CERTIFICATIONS

AWS Certified Solutions Architect Professional - 2023

Certified Kubernetes Administrator (CKA) - 2022

HashiCorp Certified: Terraform Associate - 2021
