## PROFESSIONAL SUMMARY

---

Dedicated DevOps engineer with 4 years of experience building and maintaining scalable infrastructure solutions. Passionate about automation and cloud technologies, with a focus on improving deployment pipelines and system reliability. I thrive in collaborative environments where I can leverage my technical skills to solve complex infrastructure challenges. Committed to continuous learning and staying current with emerging DevOps practices.

## WORK EXPERIENCE

---

DevOps Engineer

CloudScale Solutions

<https://cloudscale.io>

Amsterdam, Netherlands

March 2022 - Present

Designed and implemented CI/CD pipelines using GitLab and Jenkins, reducing deployment time by 45% and enabling faster feature releases across multiple teams.

Managed Kubernetes clusters running on AWS, handling scaling, monitoring, and disaster recovery procedures for 150+ containerized microservices.

Established comprehensive monitoring and alerting infrastructure using Prometheus and Grafana, reducing mean time to incident detection from 30 minutes to 5 minutes.

Mentored 2 junior DevOps engineers on infrastructure best practices, container orchestration, and cloud security protocols.

Senior Infrastructure Technician

DataFlow Systems

<https://dataflowsystems.net>

Amsterdam, Netherlands

August 2020 - February 2022

Automated infrastructure provisioning using Terraform and Ansible, reducing manual configuration time by 60% and improving environment consistency across development, staging, and production.

Implemented Docker containerization strategy for legacy applications, enabling deployment to Kubernetes and reducing infrastructure costs by 35%.

Developed comprehensive disaster recovery and backup solutions using AWS services, achieving 99.95% uptime SLA for mission-critical systems.

Led infrastructure upgrade project from on-premise data center to AWS cloud, managing migration of 25+ applications with zero downtime.

Junior DevOps Engineer

TechVenture Group

<https://techventure.co>

Amsterdam, Netherlands

June 2019 - July 2020

Supported Linux server administration and maintenance for production environments running CentOS and Ubuntu across hybrid cloud infrastructure.

Assisted in building automated deployment pipelines using Jenkins, GitHub Actions, and improving code deployment efficiency for development teams.

Monitored system performance and troubleshooted infrastructure issues, collaborating with development teams to resolve production incidents.

Participated in on-call rotation providing 24/7 support for critical systems and infrastructure components.

## EDUCATION

---

Bachelor of Science in Computer Science

University of Amsterdam (UvA)

Amsterdam, Netherlands

Graduated: June 2019

## SKILLS

---

Cloud Platforms: AWS, Azure, Google Cloud Platform

Container Technologies: Docker, Kubernetes, Docker Compose

Infrastructure as Code: Terraform, Ansible, CloudFormation

CI/CD Tools: Jenkins, GitLab CI/CD, GitHub Actions

Monitoring and Logging: Prometheus, Grafana, ELK Stack, DataDog

Scripting Languages: Bash, Python, Go

Version Control: Git, GitHub, GitLab

Databases: PostgreSQL, MySQL, MongoDB

Operating Systems: Linux (CentOS, Ubuntu, Debian), Windows Server

Networking: TCP/IP, DNS, Load Balancing, VPC configuration

Agile Methodologies: Scrum, Kanban

## PUBLIC GITHUB REPOSITORIES

---

tverhoeven/kubernetes-monitoring-stack - Helm charts and Prometheus configuration for comprehensive Kubernetes cluster monitoring with custom dashboards.

tverhoeven/terraform-aws-infrastructure - Reusable Terraform modules for provisioning scalable AWS infrastructure including VPC, RDS, and auto-scaling groups.

tverhoeven/ci-cd-pipeline-templates - Jenkins and GitLab CI pipeline templates for containerized application deployment with automated testing integration.

tverhoeven/ansible-playbook-collection - Collection of Ansible playbooks for Linux server configuration management, security hardening, and package updates.

## CERTIFICATIONS

---

AWS Certified Solutions Architect Associate (2021)

Kubernetes Application Developer (CKAD) (2022)

## LANGUAGES

---

Dutch (Native)

English (Fluent)

German (Intermediate)
