PROFESSIONAL SUMMARY

Dedicated software engineer with 5 years of experience developing scalable web applications and backend systems. Proven track record of delivering high-quality code in fast-paced environments, with strong expertise in full-stack development and cloud technologies. Passionate about writing clean, maintainable code and collaborating effectively with cross-functional teams. Looking to leverage technical skills and problem-solving abilities to contribute to innovative projects at a growth-stage organisation.

WORK EXPERIENCE

Senior Software Engineer

TechVision Solutions (Previously known as Innovate Digital Partners)

London, United Kingdom

<https://www.techvisionsolutions.co.uk>

January 2023 - Present

Architected and implemented microservices-based payment processing system handling 2 million+ transactions monthly using Node.js and Express, reducing transaction processing time by 35 percent

Led migration of legacy monolithic application to containerised deployment approach, improving system reliability and reducing deployment time from 2 hours to 15 minutes

Mentored 2 junior developers on best practices for code quality, design patterns and collaborative development workflows

Established automated testing framework increasing code coverage from 45 percent to 82 percent across critical business logic modules

Software Engineer

DataFlow Analytics Ltd

<https://www.dataflowanalytics.com>

Manchester, United Kingdom

March 2021 - December 2022

Developed real-time data processing pipeline using Python and Apache Kafka for analysing customer behavioural metrics across 500+ enterprise clients

Built RESTful APIs serving analytics dashboard used by 200+ internal stakeholders, processing requests with sub-100ms response times

Implemented comprehensive logging and monitoring solution using ELK Stack, enabling rapid identification and resolution of production issues

Collaborated with product and design teams to define requirements and deliver 8 major feature releases over 18-month period

Junior Software Engineer

CloudNine Systems Inc

<https://cloudninesystems.io>

Oxford, United Kingdom

June 2019 - February 2021

Developed and maintained customer-facing web application using React and Django, supporting user base of 50,000+ active users

Wrote database queries and optimised SQL performance for reporting features, reducing query execution time by 48 percent

Participated in daily stand-ups and sprint planning ceremonies, ensuring alignment with team goals and timeline objectives

Fixed critical bugs and implemented hotfixes in production environment, maintaining 99.5 percent uptime SLA for core services

EDUCATION

Bachelor of Science in Computer Science

University of Oxford

Oxford, United Kingdom

Graduated: June 2019

Grade: 2:1 (Upper Second Class Honours)

TECHNICAL SKILLS

Programming Languages: Python, JavaScript, TypeScript, Java, SQL

Frontend Development: React, HTML5, CSS3, Redux, Material-UI

Backend Development: Node.js, Django, Express, RESTful API Design

Databases: PostgreSQL, MongoDB, MySQL, Redis

DevOps and Infrastructure: Docker, AWS (EC2, S3, RDS), Jenkins, GitLab CI/CD

Advanced Technologies: Kubernetes, Terraform, ArgoCD, Apache Kafka

Tools and Platforms: Git, GitHub, Jira, Confluence, Postman, Linux

Methodologies: Agile, Scrum, Test-Driven Development, Continuous Integration

GITHUB REPOSITORIES

github.com/jmatthews-dev/react-analytics-dashboard

React-based analytics dashboard with D3.js visualisations and Redux state management

github.com/jmatthews-dev/python-data-pipeline

Python ETL pipeline processing structured data with Apache Spark integration

github.com/jmatthews-dev/nodejs-rest-api

Express.js REST API with PostgreSQL backend and comprehensive API documentation

github.com/jmatthews-dev/machine-learning-classifier

Python scikit-learn classification model with data preprocessing and evaluation metrics

ADDITIONAL INFORMATION

Languages: English (Native), Romanian (Conversational)

Certifications: AWS Solutions Architect Associate (in progress)

Open Source Contributions: Active contributor to several JavaScript and Python projects on GitHub
