PROFESSIONAL SUMMARY

Results-driven and highly motivated Frontend Engineer with a proven track record of delivering cutting-edge digital solutions through cross-functional collaboration. Passionate about leveraging innovative technologies to spearhead mission-critical projects and drive organisational objectives. Champion of data-driven decision making and synergistic team approaches. Committed to actionable insights and passionate about delivering value through dynamic problem-solving.

WORK EXPERIENCE

Frontend Developer

Telefonica Digital

www.telefonica.com

Barcelona, Spain

March 2023 - Present

Developed and maintained responsive web applications using React and Vue.js, delivering user-centric solutions to enhance customer experience across multiple platforms

Collaborated with UX/UI designers and backend engineers to implement design specifications and API integrations, ensuring seamless functionality and performance

Optimised component rendering and implemented lazy loading techniques, reducing initial page load time by 35% and improving Core Web Vitals scores

Participated in agile sprint ceremonies and code review processes, contributing to knowledge sharing and continuous improvement of code quality standards

Junior Frontend Developer

CloudPeak Technologies Ltd

www.cloudpeak-tech.io

Barcelona, Spain

September 2022 - February 2023

Built interactive user interfaces using HTML5, CSS3, and JavaScript ES6+, implementing responsive design patterns compatible across all modern browsers

Assisted in the migration of legacy jQuery code to modern React components, improving maintainability and reducing technical debt in the codebase

Debugged frontend issues using browser developer tools and collaborated with QA teams to identify and resolve bugs before production deployment

Created reusable component libraries and documented code implementations to facilitate knowledge transfer and accelerate development cycles

Web Developer Intern

Banco Sabadell

www.bancsabadell.com

Barcelona, Spain

June 2022 - August 2022

Assisted in the development of internal dashboard applications using vanilla JavaScript and Bootstrap framework for financial data visualisation

Implemented unit tests using Jest testing framework, achieving 75% code coverage and improving overall application stability and reliability

Supported senior developers in troubleshooting production issues and participated in daily standup meetings to align on project priorities and deliverables

Created documentation for frontend components and maintained version control using Git, ensuring code consistency across development and staging environments

EDUCATION

Degree in Higher Technician in Multi-Media Applications Development

Institut Escola del Treball

Barcelona, Spain

2020 - 2022

TECHNICAL SKILLS

Frontend Frameworks: React, Vue.js

Programming Languages: JavaScript, HTML5, CSS3, ES6+

Testing: Jest, React Testing Library

Version Control: Git, GitHub

Tools and Platforms: npm, Webpack, Visual Studio Code, Figma
