PROFESSIONAL SUMMARY

Full stack engineer with 4 years of experience building scalable web applications across frontend and backend technologies. Specialized in React and Node.js ecosystems with a proven track record of delivering production-ready features in fast-paced startup environments. Strong problem-solver with a passion for clean code and collaborative development practices.

WORK EXPERIENCE

Senior Full Stack Developer

Factorial HR

Barcelona, Spain

February 2023 - Present

factorial.es

Developed and maintained microservices architecture supporting 50,000+ active users across multiple product lines using Node.js and Express.

Implemented React-based dashboard components improving customer data visualization and reducing load times by 40%.

Led code review process for a team of 3 junior developers, establishing best practices for Git workflows and pull request standards.

Collaborated with Product and Design teams to translate requirements into technical specifications, delivering 8 major features in 2023.

Full Stack Developer

TechVenture Labs (Previously known as CloudStream Innovations)

Madrid, Spain

June 2021 - January 2023

techventure-labs.io

Built and optimized REST APIs using Node.js, handling 2 million+ monthly requests with 99.9% uptime.

Designed and implemented PostgreSQL database schemas for e-commerce platform, improving query performance by 35%.

Developed responsive React interfaces for customer-facing applications with emphasis on accessibility standards and mobile optimization.

Managed AWS infrastructure including EC2 instances, RDS databases, and CloudFront CDN distributions for production deployments.

Junior Full Stack Developer

Digital Solutions Network

Barcelona, Spain

August 2020 - May 2021

digitalsolutions.net

Created full-stack web applications using the MERN stack (MongoDB, Express, React, Node.js) for various client projects.

Assisted in database design and optimization tasks under senior developer supervision, learning PostgreSQL and MongoDB best practices.

Participated in sprint planning and daily standups in Agile environment, contributing to sprint velocity improvements of 15%.

Fixed critical production bugs and implemented hotfixes, reducing customer support tickets by 20% within 3 months.

EDUCATION

Bachelor of Science in Computer Science

Universitat Autònoma de Barcelona

Barcelona, Spain

2016 - 2020

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, Python, SQL, HTML5, CSS3

Frontend: React, Redux, Vue.js, Material-UI, Tailwind CSS, Next.js

Backend: Node.js, Express.js, Django, RESTful APIs, GraphQL

Databases: PostgreSQL, MongoDB, MySQL, Redis

Cloud and DevOps: AWS (EC2, RDS, S3, CloudFront), Docker, Docker Compose, GitHub Actions, CI/CD pipelines

Tools and Platforms: Git, GitHub, GitLab, Linux, JIRA, Figma, Postman, VS Code

Testing: Jest, React Testing Library, Mocha, Chai

GITHUB REPOSITORIES

mhernandez-dev/react-task-management - Full-stack task management application built with React and Node.js featuring user authentication and real-time updates.

mhernandez-dev/ecommerce-api - RESTful API for e-commerce platform with PostgreSQL, JWT authentication, and comprehensive API documentation.

mhernandez-dev/weather-dashboard - Real-time weather dashboard using React hooks and external weather APIs with data visualization charts.

mhernandez-dev/portfolio-website - Personal portfolio website built with Next.js and Tailwind CSS showcasing project work and technical blog.

CERTIFICATIONS

AWS Certified Cloud Practitioner - Amazon Web Services (2022)
