PROFESSIONAL SUMMARY

Junior DevOps Engineer with 1 year of hands-on experience in cloud infrastructure and CI/CD pipeline development. Proficient in containerization technologies and basic infrastructure automation. Eager to expand knowledge in cloud platforms and DevOps best practices while contributing to team projects in a fast-paced environment.

WORK EXPERIENCE

DevOps Engineer

Synapse Data Ltd

London, United Kingdom

synapsedataltd.io

March 2024 - Present

Assisted in designing and deploying containerized applications using Docker and Kubernetes across multiple environments

Maintained and monitored CI/CD pipelines using GitLab CI, reducing deployment time by approximately 20 percent

Collaborated with development teams to troubleshoot infrastructure issues and implement monitoring solutions with Prometheus

Documented infrastructure configurations and created runbooks for team reference and knowledge sharing

Junior DevOps Engineer

CloudBuild Systems Ltd

London, United Kingdom

www.cloudbuild.co.uk

September 2023 - February 2024

Supported AWS infrastructure provisioning and management, focusing on EC2 and RDS instances

Assisted in terraform code reviews and contributed to infrastructure-as-code repositories on GitLab

Implemented basic monitoring dashboards using CloudWatch and ELK stack for application performance tracking

Participated in on-call rotation and responded to critical infrastructure alerts within SLA requirements

Junior Systems Administrator

Accenture plc

London, United Kingdom

www.accenture.com

June 2023 - August 2023

Managed Linux server configurations and performed regular system patching and updates

Assisted in backup and disaster recovery procedures for critical applications

Documented system processes and contributed to internal knowledge base articles

Supported team members with technical troubleshooting and provided tier 2 support escalation

EDUCATION

Bachelor of Science in Computer Science

University of Manchester

Manchester, United Kingdom

Graduated: June 2023

TECHNICAL SKILLS

Cloud Platforms: AWS, Azure basics

Container Technologies: Docker, Kubernetes fundamentals

Infrastructure as Code: Terraform, basic CloudFormation

CI/CD Tools: GitLab CI, Jenkins basics

Monitoring Tools: Prometheus, Grafana, CloudWatch

Operating Systems: Linux Ubuntu, CentOS, Windows Server

Scripting Languages: Bash, Python basics

Version Control: Git, GitLab

Databases: MySQL, PostgreSQL basics

Other Tools: Ansible fundamentals, Apache, Nginx

CERTIFICATIONS

AWS Certified Cloud Practitioner
