## PROFESSIONAL SUMMARY

---

Accomplished Full Stack Engineer with 7 years of progressive experience designing, developing, and deploying scalable web applications. Proven expertise in cloud architecture, microservices, and agile methodologies across fintech and SaaS sectors. Strong track record of mentoring junior developers and leading technical initiatives that improved system performance by up to 40%. Seeking to leverage full stack capabilities and architectural knowledge to drive innovation in a forward-thinking organisation.

## WORK EXPERIENCE

---

Senior Full Stack Engineer

Nexus Innovations Ltd

Leeds, United Kingdom

[www.nexusinnovations.io](http://www.nexusinnovations.io)

January 2021 - Present

Architected and deployed microservices-based platform serving 2 million+ monthly active users using Node.js and React, reducing API response times by 35%

Led migration of legacy monolithic application to cloud-native infrastructure, implementing containerisation and orchestration strategies

Mentored team of 4 junior developers, establishing code review standards and improving deployment pipeline efficiency by 45%

Designed and implemented real-time data synchronisation layer using WebSockets and Redis, enabling live collaborative features across the platform

Full Stack Engineer

Vertex Digital Solutions

Manchester, United Kingdom

[vertex-digital.net](http://vertex-digital.net)

November 2020 - December 2021

Developed full-stack e-commerce platform using Python Django backend and Vue.js frontend, processing £3.5M in annual transactions

Implemented comprehensive test coverage achieving 87% code coverage across API endpoints using Jest and Pytest frameworks

Optimised database queries and implemented caching strategies, reducing page load times from 4.2s to 1.8s

Collaborated with product and design teams to translate user requirements into technical specifications and delivered 12 major feature releases

Senior Full Stack Developer

Barclays Bank PLC

Leeds, United Kingdom

[www.barclays.com](http://www.barclays.com)

June 2017 - October 2020

Built and maintained customer-facing banking portals using Java Spring Boot and Angular, serving 500,000+ retail customers daily

Implemented comprehensive security protocols and compliance frameworks including OAuth2, SSL encryption, and PCI DSS standards

Developed ETL pipelines processing 50GB+ daily transaction data using SQL and Apache Spark for regulatory reporting

Mentored cross-functional teams and led architectural reviews for critical payment processing systems handling £2B+ annual transaction volume

## EDUCATION

---

Bachelor of Science in Computer Science

University of Manchester

Manchester, United Kingdom

Graduated: June 2017

Grade: 2:1 Upper Second Class Honours

## TECHNICAL SKILLS

---

Backend Development: Node.js, Python, Java Spring Boot, PHP, Express.js, Django, RESTful APIs

Frontend Development: React, Vue.js, Angular, HTML5, CSS3, JavaScript ES6+, TypeScript, Material Design

Databases: PostgreSQL, MySQL, MongoDB, Redis, Elasticsearch

Cloud Platforms: AWS (EC2, S3, Lambda, RDS), Google Cloud Platform, Microsoft Azure

DevOps and Infrastructure: Docker, Kubernetes, Terraform, ArgoCD, Jenkins, CircleCI, GitLab CI/CD

Other Technologies: Git, GraphQL, Microservices Architecture, Agile/Scrum, JIRA, Apache Spark, Nginx
