PROFESSIONAL SUMMARY

Results-driven and highly motivated Data Scientist with proven track record in leveraging cutting-edge machine learning technologies to spearhead innovative solutions that deliver actionable insights. Passionate about synergistically championing data-driven decision making across cross-functional teams to unlock mission-critical organisational objectives. Demonstrated expertise in translating complex datasets into tangible business value through dynamic analytical approaches and proven ability to architect scalable solutions that support strategic initiatives.

WORK EXPERIENCE

Data Scientist

DataFlow Analytics

Copenhagen, Denmark

dataflowanalytics.io

June 2023 - Present

Developed and deployed 5+ machine learning models in production environments using Python and scikit-learn, resulting in 18% improvement in customer churn prediction accuracy

Collaborated with product and engineering teams to design data pipelines and ETL processes, processing 2TB+ of daily customer interaction data using Apache Spark

Conducted exploratory data analysis on historical sales data and created interactive dashboards in Tableau to support marketing strategy decisions

Mentored 2 junior analysts on Python programming best practices and statistical validation methods for predictive models

Junior Data Scientist

Insight Systems ApS

Copenhagen, Denmark

insight-systems.co

February 2022 - May 2023

Built classification models using logistic regression and random forests to identify high-value customer segments, achieving 92% precision on test datasets

Automated weekly reporting processes using Python pandas and SQL queries, reducing manual data compilation time from 8 hours to 45 minutes

Performed feature engineering on 50+ variables from multiple data sources and documented findings in technical reports for stakeholder presentations

Participated in Agile sprint planning and retrospectives, delivering 4 data science projects within agreed timelines and scope

Data Analyst Intern

Copenhagen Business Analytics

London, United Kingdom

cbanalytics.net

August 2021 - January 2022

Cleaned and validated datasets containing 500K+ records using Python and performed quality assurance checks to ensure data integrity

Created SQL queries to extract customer demographics and behaviour patterns from relational databases for trend analysis

Visualized statistical findings using matplotlib and seaborn libraries, presenting insights to non-technical stakeholders

Supported senior analysts in A/B testing framework design and statistical significance calculation using t-tests and chi-squared tests

EDUCATION

Master of Science in Data Science and Statistics

IT University of Copenhagen (ITU Copenhagen)

Copenhagen, Denmark

Graduated: June 2021

Relevant Coursework: Machine Learning, Statistical Inference, Data Mining, Time Series Analysis, Advanced Python Programming

Bachelor of Science in Mathematics and Computer Science

University of Copenhagen (UCPH)

Copenhagen, Denmark

Graduated: June 2019

GPA: 3.7/4.0

TECHNICAL SKILLS

Programming Languages: Python, R, SQL, Bash

Machine Learning Libraries: scikit-learn, TensorFlow, XGBoost, pandas, numpy

Data Visualization: Tableau, matplotlib, seaborn, Plotly

Databases: PostgreSQL, MySQL, MongoDB

Tools and Platforms: Jupyter Notebook, Git, Apache Spark, Google Cloud Platform, Anaconda

Statistical Methods: Regression Analysis, Classification, Clustering, Hypothesis Testing, A/B Testing

Version Control: GitHub, GitLab

PUBLIC REPOSITORIES

github.com/magnusejensen/customer-churn-predictor - End-to-end ML pipeline for predicting customer churn using XGBoost and hyperparameter tuning

github.com/magnusejensen/sentiment-analysis-nlp - Natural language processing project for social media sentiment classification

github.com/magnusejensen/time-series-forecasting - ARIMA and Prophet models for retail sales forecasting with evaluation metrics

github.com/magnusejensen/data-cleaning-utilities - Python package with reusable functions for common data preprocessing tasks

LANGUAGES

Danish: Native

English: Fluent

German: Intermediate

CERTIFICATIONS

Google Cloud Certified Associate Cloud Engineer (In Progress)

Coursera Machine Learning Specialization Certificate
