PROFESSIONAL SUMMARY

Seasoned Data Analyst with 14 years of progressive experience building and optimizing data solutions for multinational organizations. Proven track record in designing enterprise data pipelines, developing advanced analytics frameworks, and translating complex business requirements into actionable insights. Strong background in statistical analysis, business intelligence, and data-driven decision making across finance, healthcare, and technology sectors.

WORK EXPERIENCE

Senior Data Analyst

DataFlow Systems AG

www.dataflow-systems.io

Zurich, Switzerland

March 2020 - Present

Designed and implemented enterprise data warehouse architecture supporting 200+ concurrent users and 2TB daily data ingestion across multiple business units

Developed dbt transformation pipelines that reduced data processing time by 45% and improved data quality metrics from 87% to 98% accuracy

Led cross-functional team of 5 analysts in migrating legacy reporting systems to cloud-based infrastructure, resulting in 60% cost reduction

Established KPI dashboards in Tableau and Power BI tracking business performance metrics for C-level executives and department heads

Data Analyst

Zenith Analytics Solutions

www.zenith-analytics.net

Zurich, Switzerland

January 2015 - February 2020

Built GitHub Actions workflows to automate daily ETL processes, eliminating manual data refresh tasks and reducing processing overhead by 35%

Developed predictive models using Python scikit-learn and statistical regression analysis to forecast revenue trends with 92% accuracy

Performed comprehensive data quality audits on 50+ enterprise databases, documenting schema issues and implementing validation rules

Created interactive Qlik Sense dashboards enabling stakeholders to perform self-service analytics and reducing ad-hoc reporting requests by 70%

Junior Data Analyst

Financial Insights Corporation

Zurich, Switzerland

June 2010 - December 2014

Consolidated financial data from multiple source systems into centralized reporting database supporting monthly board presentations

Conducted exploratory data analysis on customer transaction datasets using HuggingFace Transformers for natural language processing in billing documents

Maintained and updated 30+ Excel-based reporting tools and automated monthly reconciliation processes for accounting department

Supported business teams with SQL queries against operational databases to investigate performance metrics and troubleshoot data discrepancies

EDUCATION

Master of Science in Data Science

University of Zurich, Switzerland

2008 - 2010

Bachelor of Science in Mathematics

ETH Zurich (Swiss Federal Institute of Technology)

2004 - 2008
