PROFESSIONAL SUMMARY

Motivated Junior Software Engineer with 1 year of professional experience developing web applications and contributing to backend systems. Passionate about writing clean, maintainable code and collaborating with cross-functional teams to deliver quality software solutions. Quick learner with a strong foundation in full-stack development and a commitment to continuous improvement in software engineering practices.

TECHNICAL SKILLS

Programming Languages: Python, JavaScript, Java, C#

Web Technologies: HTML5, CSS3, React, Node.js

Databases: MySQL, PostgreSQL, MongoDB

Version Control: Git, GitHub, GitLab

Operating Systems: Windows, Linux, macOS

Tools and Frameworks: Express.js, Django, REST APIs

DevOps and Infrastructure: Kubernetes, Terraform, ArgoCD, Docker

Cloud Platforms: AWS, Azure

WORK EXPERIENCE

Junior Software Developer

TechVision Solutions Ltd (Previously known as Apex Digital Systems)

www.techvisionsolutions.co.uk

Manchester, UK

June 2023 - Present

Developed and maintained REST APIs using Python Django framework for internal business applications serving 50+ users across multiple departments

Implemented automated testing suite in Python using pytest, increasing code coverage from 45% to 78% and reducing production bugs by 32%

Collaborated with senior developers to refactor legacy codebase, improving application performance and reducing technical debt across three major modules

Participated in daily stand-ups and bi-weekly sprint planning sessions, contributing to Agile development process and meeting project deadlines

Software Developer Intern

Quantum Innovations Labs

www.quantuminnovations.io

Liverpool, UK

February 2023 - May 2023

Built responsive web interfaces using React and CSS3 for customer-facing dashboard, improving user experience and reducing page load time by 25%

Debugged and fixed critical issues in Node.js backend services, reducing API response time from 800ms to 300ms through query optimization

Wrote comprehensive unit tests using Jest framework, achieving 85% test coverage for frontend components

Assisted in database schema design and migration planning for PostgreSQL database upgrade affecting 10,000+ customer records

Junior Web Developer

Digital Forge Solutions

www.digitalforgesolutions.net

Liverpool, UK

September 2022 - January 2023

Created static web pages and basic interactive features using HTML5, CSS3, and vanilla JavaScript for client marketing websites

Assisted senior developers with Git workflow and version control processes, managing feature branches and pull requests

Troubleshoot cross-browser compatibility issues and implemented fixes to ensure consistent user experience across Chrome, Firefox, and Safari

Documented code functionality and created technical guides for internal team reference

EDUCATION

BSc Computer Science

University of Manchester

Manchester, UK

2019 - 2022

Grade: 2:1 (Upper Second Class Honours)

ADDITIONAL INFORMATION

Certifications: AWS Certified Cloud Practitioner (2023)

Languages: English (Native), Spanish (Basic)
