PROFESSIONAL SUMMARY

Results-driven junior data scientist with 2 years of hands-on experience building predictive models and deriving actionable insights from complex datasets. Proficient in Python, SQL, and machine learning frameworks with a proven track record of delivering data-driven solutions in fast-paced environments. Strong analytical mindset combined with excellent communication skills for translating technical findings to non-technical stakeholders. Passionate about leveraging data science to solve real-world business problems.

WORK EXPERIENCE

Data Scientist

Synapse Analytics GmbH

Berlin, Germany

synapse-analytics.io

January 2023 - Present

Developed and deployed 5 machine learning models for customer segmentation, resulting in a 15% improvement in marketing campaign ROI

Built data pipelines using Python and Apache Spark to process 2TB+ of daily transaction data from multiple sources

Created interactive dashboards in Tableau and Power BI to visualize key performance metrics for executive leadership

Collaborated with product and engineering teams to identify data-driven opportunities and validate hypotheses through A/B testing

Junior Data Analyst

CloudVision Solutions

Berlin, Germany

cloudvision-solutions.net

July 2022 - December 2022

Analyzed sales and operational data using SQL and Python to identify business bottlenecks and optimization opportunities

Performed exploratory data analysis on marketing campaign datasets and provided recommendations that increased conversion rates by 12%

Developed automated reporting scripts that reduced manual reporting time by 8 hours per week
Assisted senior data scientists in feature engineering and model evaluation for predictive analytics projects

Data Science Intern

Zalando SE

Berlin, Germany

zalando.com

March 2022 - June 2022

Preprocessed and cleaned large-scale e-commerce datasets using Pandas and NumPy for machine learning pipeline development

Implemented logistic regression models to predict customer purchase behavior with 78% accuracy

Contributed to documentation and code reviews for internal machine learning libraries used across the company

Participated in weekly knowledge-sharing sessions and learned best practices in production ML systems

EDUCATION

Bachelor of Science in Computer Science

Technische Universität Berlin

Berlin, Germany

Graduated: June 2022

GPA: 3.6/4.0

TECHNICAL SKILLS

Programming Languages: Python, SQL, R, JavaScript

Machine Learning: Scikit-learn, TensorFlow, PyTorch, XGBoost, Random Forest

Data Processing: Pandas, NumPy, Apache Spark, SQL Server

Data Visualization: Matplotlib, Seaborn, Tableau, Power BI

Tools and Platforms: Git, Docker, Jupyter Notebook, Google Colab, AWS

Statistics and Analytics: Hypothesis Testing, Regression Analysis, Time Series Analysis, A/B Testing

LANGUAGES

German: Native

English: Fluent (C1)

French: Intermediate (B1)

CERTIFICATIONS

Google Data Analytics Professional Certificate, 2022

Python for Data Science, Coursera, 2021
