PROFESSIONAL SUMMARY

Full Stack Engineer with 2 years of hands-on experience building web applications using modern JavaScript frameworks and backend technologies. Proficient in React, Node.js, and cloud deployment on AWS. Passionate about writing clean, maintainable code and delivering scalable solutions. Looking to develop expertise in microservices architecture and expand knowledge of enterprise-level system design.

WORK EXPERIENCE

Junior Full Stack Developer

CloudPeak Technologies Ltd

www.cloudpeak.io

London, United Kingdom

June 2023 - Present

Developed and maintained 5+ full-stack web applications using React and Node.js serving 50,000+ monthly active users

Implemented real-time data pipelines using LangChain for AI-powered search functionality across customer databases

Deployed applications to AWS EC2 and managed CI/CD pipelines using GitHub Actions for automated testing and deployment

Collaborated with product team to gather requirements and delivered features on a bi-weekly sprint cycle, achieving 95% on-time delivery

Full Stack Developer

TechServe Solutions Ltd

www.techserve.co.uk

Reading, United Kingdom

March 2022 - May 2023

Built responsive user interfaces with React and TypeScript for internal admin dashboards used by 200+ staff members

Designed and implemented REST APIs in Node.js with Express.js framework, handling 2 million requests per month

Optimised database queries in PostgreSQL, reducing average response times from 800ms to 200ms

Participated in code reviews and mentored 1 junior developer on best practices for component design and testing

Web Development Intern

University of Oxford - IT Services

www.ox.ac.uk

Oxford, United Kingdom

July 2021 - February 2022

Assisted in developing internal student information portal using React and Flask, supporting 25,000+ student accounts

Created automated data transformation workflows using dbt to consolidate data from 8 different university systems into data warehouse

Built unit and integration tests using Jest and Pytest, achieving 82% code coverage for critical modules

Documented API endpoints and system architecture for handover to permanent development team

EDUCATION

Bachelor of Science in Computer Science

University of Oxford

Oxford, United Kingdom

2018 - 2021

Grade: 2:1 Upper Second Class Honours

TECHNICAL SKILLS

Frontend: React, JavaScript, TypeScript, HTML5, CSS3, Tailwind CSS, Redux, Next.js

Backend: Node.js, Express.js, Python, Flask

Databases: PostgreSQL, MongoDB, MySQL

Cloud and DevOps: AWS (EC2, S3, RDS), Docker, GitHub Actions, GitLab CI

Tools and Platforms: Git, GitHub, GitLab, Visual Studio Code, Postman, Jira, Figma

Testing: Jest, Mocha, Pytest, React Testing Library

CERTIFICATIONS AND COURSES

AWS Certified Cloud Practitioner - Amazon Web Services (2023)

The Complete JavaScript Course 2022 - Udemy (2022)

PERSONAL PROJECTS

Portfolio Website - github.com/jamesmitchell92/portfolio-site

Full-stack portfolio showcasing projects, built with Next.js and Tailwind CSS with dark mode toggle

Chat Application - github.com/jamesmitchell92/real-time-chat-app

Real-time messaging application using React, Socket.io, and Node.js backend with authentication and message history

Task Manager API - github.com/jamesmitchell92/task-manager-api

RESTful API built with Express.js and MongoDB, includes user authentication, task CRUD operations, and comprehensive API documentation
