PROFESSIONAL SUMMARY

Results-driven and highly motivated Full Stack Engineer with a proven track record of spearheading cutting-edge digital solutions that drive organisational objectives through cross-functional collaboration. Passionate about delivering actionable insights and leveraging innovative technologies to champion mission-critical systems whilst enabling data-driven decision making. Synergistically combines technical expertise with a commitment to continuous improvement, positioning myself as a dynamic asset for organisations seeking to achieve sustainable growth and transform complex challenges into strategic competitive advantages.

CORE SKILLS

Backend Development: Java, Python, C#, Node.js, Spring Boot, Django

Frontend Development: React, Vue.js, Angular, HTML5, CSS3, JavaScript, TypeScript

Databases: PostgreSQL, MySQL, MongoDB, Redis

Cloud Platforms: AWS, Google Cloud Platform, Microsoft Azure

DevOps and Infrastructure: Docker, Jenkins, GitLab CI/CD, GitHub Actions

API Design: RESTful APIs, GraphQL, SOAP

Version Control: Git, GitHub, GitLab

Advanced Technologies: Kubernetes, Terraform, ArgoCD, Ansible

Testing: JUnit, Jest, Mocha, Selenium, pytest

Methodologies: Agile, Scrum, Kanban, Test-Driven Development

WORK EXPERIENCE

Senior Full Stack Engineer

TechVenture Solutions Ltd | www.techventuresolutions.io

Oxford, United Kingdom

March 2022 - Present

Architected and deployed a microservices-based platform serving over 50,000 monthly active users, resulting in a 40% improvement in system performance and reducing infrastructure costs by 25% through optimised resource allocation.

Led a team of 4 junior developers in designing and implementing a customer-facing React and Node.js application, establishing coding standards, conducting code reviews, and mentoring team members on best practices in full stack development.

Developed comprehensive REST APIs using Spring Boot and Java, integrating with PostgreSQL and MongoDB databases to support multiple client applications across mobile and web platforms with 99.8% uptime.

Spearheaded the migration of legacy monolithic systems to a containerised Docker environment integrated with Jenkins CI/CD pipelines, reducing deployment time from 2 hours to 15 minutes and improving development team efficiency.

Full Stack Engineer

Nexus Digital Ltd | nexusdigital.co

Reading, United Kingdom

July 2019 - February 2022

Built and maintained multiple production-grade web applications using React, Vue.js, and Python Django frameworks, serving enterprise clients across the financial services and healthcare sectors with complex requirements.

Designed and implemented scalable database schemas using PostgreSQL and MongoDB, optimising query performance through indexing strategies and achieving a 50% reduction in query execution times for critical business operations.

Collaborated with cross-functional teams including UI/UX designers, product managers, and DevOps engineers to deliver features on schedule, participating in agile ceremonies and contributing to sprint planning and retrospectives.

Implemented comprehensive test suites using Jest, pytest, and Selenium, achieving 85% code coverage across frontend and backend components whilst maintaining development velocity and code quality standards.

Junior Full Stack Developer

Digital Innovations Group | www.diginnov.net

Oxford, United Kingdom

September 2016 - June 2019

Developed full stack web applications using HTML5, CSS3, JavaScript, and Python, contributing to projects ranging from e-commerce platforms to internal business management systems supporting 200+ employees.

Assisted in the deployment and maintenance of applications on AWS infrastructure, gaining hands-on experience with EC2, S3, and RDS services whilst supporting senior engineers in infrastructure provisioning and scaling.

Participated in daily stand-ups and sprint ceremonies, communicating progress to stakeholders and identifying blockers early, demonstrating strong adaptability and willingness to take on diverse technical challenges.

Troubleshoot and resolved production issues affecting customer-facing applications, documenting solutions and contributing to knowledge base articles used by the broader engineering team for reference and training purposes.

EDUCATION

Bachelor of Science in Computer Science

University of Oxford

Oxford, United Kingdom

Graduated: June 2016

Grade: 2:1 (Upper Second-Class Honours)

CERTIFICATIONS

AWS Certified Solutions Architect - Associate (2021)

Scrum Master Certification (2020)
