PROFESSIONAL SUMMARY

Experienced Full Stack Engineer with 4 years of progressive experience building scalable web applications across diverse technology stacks. Proficient in both frontend and backend development with a strong focus on delivering user-centric solutions. Demonstrated ability to work collaboratively in agile teams and mentor junior developers. Seeking to leverage technical expertise and problem-solving skills in a challenging role that drives innovation and business impact.

WORK EXPERIENCE

Full Stack Engineer

Velocity Digital Solutions

<https://www.velocitydigital.io>

Glasgow, United Kingdom

January 2022 - Present

- Designed and implemented RESTful APIs using Node.js and Express, reducing response times by 40% through optimization and caching strategies
- Developed React-based frontend components with Redux state management, improving user engagement metrics by 25%
- Containerized applications using Docker and managed deployments via GitHub Actions, streamlining the CI/CD pipeline
- Mentored 2 junior developers on full stack best practices and conducted code reviews across the development team

Senior Full Stack Developer

Prism Analytics Ltd

<https://www.prismanalytics.net>

Edinburgh, United Kingdom

September 2020 - January 2022

- Led development of a real-time data visualization dashboard using React, D3.js, and PostgreSQL for 50+ enterprise clients
- Architected microservices using Node.js and MongoDB, achieving 99.8% uptime and handling 1M+ daily requests
- Implemented LangChain integration for AI-powered document processing, reducing manual data entry by 60%
- Established automated testing protocols using Jest and Enzyme, achieving 85% code coverage across the platform

Full Stack Engineer

TechFlow Solutions Ltd

Glasgow, United Kingdom

June 2020 - August 2020

- Built full-stack e-commerce platform using JavaScript, React, and Python Flask serving 10,000+ active users
- Implemented PostgreSQL database schema and optimized complex queries to improve application performance by 30%
- Developed responsive UI components and integrated third-party payment APIs including Stripe and PayPal
- Collaborated with product and design teams to deliver features on schedule within 2-week sprint cycles
