PROFESSIONAL SUMMARY

Results-driven Full Stack Engineer with 8 years of progressive experience in designing, developing, and deploying scalable web applications across multiple sectors. Proven track record of leading cross-functional teams and delivering high-impact solutions in fast-paced environments. Skilled in both frontend and backend technologies with a strong focus on performance optimization and clean code architecture. Known for mentoring junior developers and driving technical excellence through best practices and innovation.

WORK EXPERIENCE

Senior Full Stack Engineer

TechVision Solutions Ltd

www.techvisionsolutions.io

Liverpool, United Kingdom

January 2022 - Present

Directed a team of 28 software engineers across three development squads, overseeing all technical decisions and architectural implementations for enterprise-level applications serving 2 million users globally. Led the complete redesign of legacy monolithic systems into microservices architecture, reducing system latency by 45 percent and improving deployment frequency to multiple releases per day. Architected and implemented CI/CD pipelines using industry-standard tools, reducing deployment time from 4 hours to 12 minutes and enabling continuous integration practices across all teams. Mentored 12 junior and mid-level engineers, conducting weekly technical reviews and establishing coding standards that improved code quality metrics by 38 percent across the organization.

Junior Full Stack Engineer

CloudBase Innovations

www.cloudbaseinnovations.co

Manchester, United Kingdom

July 2020 - December 2021

Developed and maintained responsive user interfaces using React and Angular, implementing pixel-perfect designs while ensuring cross-browser compatibility and accessibility standards compliance. Built and optimized RESTful APIs using Node.js and Express, reducing average response times from 800ms to 250ms through strategic caching and database query optimization. Collaborated with product managers and UX designers to translate business requirements into technical specifications, resulting in successful delivery of three major feature releases. Participated in daily stand-ups and sprint planning ceremonies, contributing to a team velocity increase of 22 percent over six months.

Graduate Software Developer

DataStream Technologies

www.datastream.net

Liverpool, United Kingdom

September 2019 - June 2020

Assisted in the development of internal web applications using HTML, CSS, and JavaScript under the guidance of senior developers, gaining foundational knowledge of software development lifecycle processes. Wrote and executed unit tests for assigned modules, achieving 85 percent code coverage and identifying critical bugs before production deployment. Contributed to documentation and knowledge base articles, helping to establish best practices for new developers joining the team. Attended training sessions and completed online certifications in web development, successfully obtaining AWS Solutions Architect Associate certification.

EDUCATION

Bachelor of Science in Computer Science

University of Liverpool

Liverpool, United Kingdom

Graduated: 2019

TECHNICAL SKILLS

Backend Technologies: Node.js, Python, Java, Express.js, Django, Spring Boot

Frontend Technologies: React, Angular, Vue.js, HTML5, CSS3, TypeScript, JavaScript

Database Management: PostgreSQL, MongoDB, MySQL, Redis, Elasticsearch

Cloud and DevOps: AWS, Azure, Docker, Kubernetes, Terraform, ArgoCD, Jenkins

API Development: RESTful APIs, GraphQL, SOAP, API Gateway Management

Version Control: Git, GitHub, GitLab, Bitbucket

Testing and Quality Assurance: Jest, Mocha, Chai, Selenium, JUnit, Test-Driven Development

Software Architecture: Microservices, System Design, Design Patterns, SOLID Principles
