PROFESSIONAL SUMMARY

Experienced frontend engineer with 2 years of hands-on development experience building responsive web applications using React and modern JavaScript frameworks. Proven track record of leading cross-functional teams and delivering scalable solutions in fast-paced environments. Strong problem-solving abilities combined with a passion for clean code and user-centered design. Currently seeking challenging opportunities to expand technical expertise and drive innovation.

WORK EXPERIENCE

Senior Frontend Architect

TechVision AB

www.techvision.io

Stockholm, Sweden

March 2024 - Present

Led a team of 18 frontend engineers in redesigning company's entire product suite using Next.js and TypeScript. Architected and implemented micro-frontend architecture reducing deployment time by 45% and improving code maintainability across 12 separate applications. Established frontend best practices, code review standards, and mentored junior developers on advanced React patterns and performance optimization techniques. Directed quarterly planning sessions with C-level stakeholders and presented technical roadmap to board of directors.

Mid-Level Frontend Engineer

Pixel Creative Studios

www.pixelcreative.co

Stockholm, Sweden

December 2022 - February 2024

Developed and maintained 8 customer-facing web applications using React, Redux, and Vue.js for major clients including Volvo and IKEA. Implemented responsive designs with CSS Grid and Flexbox, achieving 98% Lighthouse performance scores across all projects. Collaborated with UX designers and backend teams to deliver pixel-perfect implementations within tight deadlines. Reduced bundle size by 32% through webpack optimization and code splitting strategies.

Junior Frontend Developer

WebStart Solutions

www.webstartsolutions.net

Stockholm, Sweden

June 2022 - November 2022

Built interactive components using React and vanilla JavaScript for internal project management tools serving 500+ employees. Assisted in fixing CSS bugs and implementing responsive layouts across multiple browser versions. Participated in daily standup meetings and contributed to sprint planning with the development team. Created reusable component library documentation using Storybook for frontend consistency.

EDUCATION

Bachelor of Science in Computer Science

Royal Institute of Technology (KTH)

Stockholm, Sweden

2020 - 2022

GITHUB REPOSITORIES

<https://github.com/eriksoderström/react-dashboard-ui>

Interactive dashboard component library with Charts and data visualization features built with React and D3.js

<https://github.com/eriksoderström/ecommerce-frontend>

Full-featured e-commerce platform frontend using Next.js, Stripe integration, and Redux state management

<https://github.com/eriksoderström/weather-app>

Real-time weather application with geolocation, built with React Hooks and OpenWeather API

<https://github.com/eriksoderström/css-animation-library>

Collection of reusable CSS animations and transitions with JavaScript trigger functionality

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, HTML5, CSS3, SCSS, Python

Frameworks and Libraries: React, Next.js, Vue.js, Redux, Context API, Tailwind CSS, Material-UI

Tools and Technologies: Git, Webpack, Vite, Figma, Chrome DevTools, Jest, Cypress, npm, yarn

Databases: MongoDB, PostgreSQL, Firebase

Version Control: GitHub, GitLab

Other: REST APIs, Agile/Scrum, Responsive Design, Web Performance Optimization, Component-Driven Development
