PROFESSIONAL SUMMARY

I'm a Junior BI Analyst with 2 years of experience building reports and dashboards that help teams make data-driven decisions. I started my career doing basic SQL queries and Excel work, but I've developed a solid foundation in Power BI and data visualisation. I'm methodical about understanding what stakeholders actually need rather than delivering reports nobody reads, and I genuinely enjoy the problem-solving side of analytics.

WORK EXPERIENCE

BI Analyst

DataVault Solutions

www.datavaultsolutions.io

Birmingham, United Kingdom

June 2023 - Present

Developed and maintained 15+ Power BI dashboards for the marketing and sales departments tracking KPIs and campaign performance metrics.

Wrote SQL queries against the data warehouse to extract and transform raw data into formats suitable for analysis and reporting.

Collaborated with business stakeholders to gather requirements and translated them into technical specifications for new reports and visualisations.

Identified and documented data quality issues that were affecting reporting accuracy and worked with the data engineering team to implement fixes.

Junior BI Analyst

Insight Analytics Ltd

www.insightanalytics.co.uk

Solihull, United Kingdom

March 2022 - May 2023

Created Excel-based financial reports and dashboards using pivot tables and VLOOKUP formulas to present monthly business results to senior management.

Assisted in the migration of legacy reports from Excel to Power BI, working closely with the lead analyst to ensure data accuracy throughout the transition.

Responded to ad-hoc reporting requests from various departments and delivered analysis within agreed timeframes.

Participated in training sessions on SQL fundamentals and gained proficiency in querying operational databases for routine analysis tasks.

Data Support Analyst

Cornerstone Digital Services

www.cornerstonedigital.net

Birmingham, United Kingdom

September 2021 - February 2022

Provided frontline support to business users experiencing issues with existing reports and dashboards.

Performed basic data validation checks to ensure monthly data loads into the reporting systems completed successfully.

Documented commonly requested report modifications and compiled suggestions for the development team.

Assisted with the setup and testing of new user accounts in the reporting platform and managed access permissions.

EDUCATION

BSc Business Analytics

University of Birmingham

Graduated July 2021

SKILLS

Power BI

SQL (SELECT, JOIN, WHERE clauses, basic aggregations)

Excel (pivot tables, VLOOKUP, INDEX MATCH, conditional formatting)

Data visualisation principles

DAX (basic measures and calculated columns)

Azure Data Studio

Requirements gathering

Technical documentation

Problem solving
