PROFESSIONAL SUMMARY

I'm a Junior BI Analyst with 2 years of experience building dashboards and reports that help teams make better decisions. I've worked with SQL, Python, and Power BI across different industries, and I enjoy turning messy data into something useful. I'm keen to develop my analytics skills further and take on more complex data challenges.

TECHNICAL SKILLS

SQL (MySQL, SQL Server)

Python (Pandas, NumPy, Matplotlib)

Power BI

Tableau

Excel (Advanced formulas, pivot tables, VBA)

Data warehousing concepts

ETL processes

Looker

Google Analytics

Git and GitHub

WORK EXPERIENCE

Junior BI Analyst

DataViz Solutions Ltd

www.dataviz-solutions.io

London, United Kingdom

March 2023 - Present

Developed and maintained 12 interactive Power BI dashboards tracking sales performance, customer acquisition, and operational metrics for 8 key stakeholders across the business.

Wrote and optimized SQL queries to extract data from MySQL databases, reducing report generation time by 35 percent through better indexing and query structure.

Created automated weekly reports using Python scripts that processed CSV exports and delivered insights via email, saving the team approximately 4 hours per week.

Collaborated with the finance department to implement a new KPI tracking system, ensuring data accuracy and establishing a single source of truth for reporting.

Data Analyst

Insight Analytics Group

www.insightanalytics.co.uk

Canary Wharf, London, United Kingdom

July 2022 - February 2023

Built Tableau dashboards to visualize website traffic and user behavior data from Google Analytics, helping the marketing team identify conversion bottlenecks.

Conducted ad-hoc data analysis on customer churn patterns using Excel and SQL, presenting findings that led to a targeted retention campaign for 500 at-risk accounts.

Supported the implementation of a new data warehouse by documenting ETL processes and testing data quality across 15 source systems.

Assisted senior analysts in developing predictive models using Python, including data cleaning and feature engineering for a customer lifetime value project.

Business Analyst Intern

FinServe Solutions

www.finserve.net

London, United Kingdom

September 2021 - June 2022

Prepared financial dashboards and variance reports in Excel to support monthly business review meetings with executive stakeholders.

Tested data quality and documented discrepancies in transaction records, identifying and resolving issues affecting 3 key reporting systems.

Created user documentation and trained 6 finance team members on using a new reporting tool with hands-on sessions and written guides.

Gathered requirements from business users and translated them into technical specifications for analytics projects.

EDUCATION

Bachelor of Science in Mathematics and Statistics

University College London (UCL)

London, United Kingdom

Graduated: June 2021

Grade: 2:1

CERTIFICATIONS

Microsoft Power BI Data Analyst Associate (In Progress)

Google Analytics Individual Qualification Certificate

ADDITIONAL INFORMATION

Languages: English (Native)

Interests: Data visualization, predictive analytics, building dashboards for non-technical audiences
