PROFESSIONAL SUMMARY

Frontend Engineer with 1 year of hands-on experience building responsive web applications using modern JavaScript frameworks. I started my career at a digital agency in Glasgow where I learned the fundamentals of React and CSS, then moved to a fintech startup to deepen my skills in component-driven development. I'm keen on writing clean, maintainable code and collaborating with designers to deliver user-friendly interfaces. Outside of work, I contribute to open-source projects and experiment with new front-end tools.

WORK EXPERIENCE

Junior Frontend Developer

DigitalWave Solutions

www.digitalwave.io

Glasgow, United Kingdom

June 2023 - Present

Developed and maintained React components for client websites using functional components and hooks, improving page load times by 18% through code optimization. Collaborated with UX designers to implement pixel-perfect designs using CSS Flexbox and Grid, ensuring cross-browser compatibility. Wrote unit tests using Jest and React Testing Library to achieve 85% code coverage on new features. Participated in daily stand-ups and sprint planning ceremonies, taking ownership of user story completion within 2-week sprints.

Frontend Developer Intern

TechStart Glasgow

www.techstart.co

Glasgow, United Kingdom

March 2023 - May 2023

Built static website pages from Figma designs using HTML5, CSS3, and vanilla JavaScript, delivering projects 2 days ahead of schedule. Debugged front-end issues using Chrome DevTools and fixed responsive design problems affecting mobile users. Learned version control using Git and GitHub, submitting pull requests that were reviewed by senior developers. Assisted in implementing a new component library documentation system that reduced developer onboarding time by 25%.

Frontend Developer (Contract)

CloudNine Marketing

www.cloudnine.net

Glasgow, United Kingdom

January 2023 - February 2023

Converted Figma mockups into responsive Vue.js components for a campaign landing page that generated 5,000 sign-ups. Enhanced existing CSS stylesheets and resolved styling inconsistencies across Safari, Chrome, and Firefox browsers. Integrated third-party APIs for email newsletter subscription and form validation using Axios.

Deployed the final project to production using Vercel and monitored performance metrics using Lighthouse.

EDUCATION

Bachelor of Science in Computer Science

University of Glasgow

Glasgow, United Kingdom

Graduated: June 2022

SKILLS

Languages: JavaScript, HTML5, CSS3, Vue.js, React

Frontend Frameworks and Libraries: React, Vue.js, Next.js basics

Styling: CSS3, Flexbox, CSS Grid, Sass, Tailwind CSS

Testing: Jest, React Testing Library, unit testing

Version Control: Git, GitHub, GitLab

Tools and Platforms: VS Code, Chrome DevTools, Figma, Vercel, Netlify

APIs: RESTful APIs, Axios, JSON

Other: Responsive Design, Cross-browser Testing, Agile/Scrum
