PROFESSIONAL SUMMARY

I'm a data engineer with 14 years building scalable data pipelines and infrastructure for companies dealing with massive datasets. I've spent the last decade moving from hands-on engineering roles into staff-level positions where I architect solutions and mentor teams through complex data challenges. My focus has always been on practical systems that actually work in production, not theoretical exercises.

WORK EXPERIENCE

Staff Data Engineer

DataFlow Solutions

dataflowsolutions.io

Barcelona, Spain

March 2021 - Present

Led the design and implementation of a real-time data processing platform handling 500GB daily ingestion across 12 teams

Mentored 5 junior and mid-level engineers on modern data architecture patterns and best practices

Reduced query latency by 65% through optimization of our Spark jobs and introduction of columnar storage formats

Established data quality frameworks and monitoring that decreased production incidents related to data pipelines by 80%

Senior Data Engineer

Vertex Analytics

vertexanalytics.net

Barcelona, Spain

June 2017 - February 2021

Built and maintained ETL pipelines processing data from 200+ third-party APIs using Python and Apache Airflow

Migrated legacy batch processing system to cloud-native architecture on AWS, reducing infrastructure costs by 40%

Designed dimensional data warehouse supporting 15+ business intelligence dashboards used daily by executives

Implemented data lineage tracking and metadata management system improving debugging time by 50%

Data Engineer

InnovateTech

www.innovatetech.es

Madrid, Spain

January 2010 - May 2017

Developed SQL-based reporting infrastructure serving 50+ stakeholders across product and finance departments

Implemented automated data validation checks that caught upstream quality issues before they reached analysts

Optimized database indexes and query execution plans on PostgreSQL databases handling millions of daily transactions

Created comprehensive documentation and runbooks for data pipeline maintenance, enabling team self-sufficiency

EDUCATION

Master of Science in Computer Science

Universitat Politècnica de Catalunya

Barcelona, Spain

2008 - 2010

Bachelor of Science in Computer Engineering

Universitat Autònoma de Barcelona

Barcelona, Spain

2004 - 2008

TECHNICAL SKILLS

Languages: Python, SQL, Scala, Bash

Big Data Technologies: Apache Spark, Apache Hadoop, Apache Airflow, Apache Kafka

Cloud Platforms: AWS (S3, EC2, RDS, Lambda, Redshift), Google Cloud Platform

Databases: PostgreSQL, MySQL, Redis, Cassandra, DynamoDB

Data Warehouse: Snowflake, Redshift, BigQuery

Data Formats: Parquet, Avro, Protocol Buffers, JSON, CSV

Version Control: Git

DevOps: Docker, Kubernetes basics, Jenkins

CERTIFICATIONS AND LANGUAGES

AWS Certified Solutions Architect - Professional

Languages: Catalan (native), Spanish (native), English (fluent), French (intermediate)
