PROFESSIONAL SUMMARY

I'm a BI Analyst with 14 years of experience building data solutions that help businesses make better decisions. I've spent the last decade focusing on enterprise analytics, working with stakeholders to understand their reporting needs and then delivering the technical implementation. I enjoy the problem-solving side of BI work, particularly when it involves optimizing complex data pipelines and finding patterns that aren't immediately obvious.

WORK EXPERIENCE

Senior BI Analyst

DataVault Solutions Ltd

www.datavault.io

Edinburgh, United Kingdom

March 2019 - Present

Designed and implemented a cloud-based analytics platform serving 40+ internal and external clients, resulting in a 45% reduction in report generation time.

Managed a team of 3 junior analysts while maintaining responsibility for 8 enterprise data warehouse projects, establishing code review standards and mentoring practices.

Migrated legacy reporting infrastructure from on-premises SQL Server to Azure, completing the project 3 weeks ahead of schedule with zero data loss.

Developed automated data quality monitoring using Python and Apache Airflow, reducing manual validation work by 60% and catching 400+ data anomalies annually.

BI Developer

Insight Analytics Group

www.insightanalytics.co.uk

Edinburgh, United Kingdom

July 2013 - February 2019

Created 150+ interactive dashboards and reports using Tableau and Power BI for financial services clients, directly supporting executive decision-making for investment portfolios.

Built ETL pipelines using SSIS and SQL, processing 2TB+ of daily transaction data with 99.9% accuracy and on-time delivery.

Collaborated with database administrators to optimize query performance, reducing average dashboard load times from 45 seconds to 8 seconds through indexing strategies and query refactoring.

Established data governance standards and documentation practices that reduced onboarding time for new team members from 6 weeks to 2 weeks.

BI Analyst

TechMetrics Consulting

www.techmetrics.net

Glasgow, United Kingdom

September 2010 - June 2013

Supported the analytics team in building business intelligence solutions for 15 enterprise clients across retail, healthcare, and manufacturing sectors.

Wrote and maintained SQL queries and stored procedures for daily reporting workflows, ensuring 100% uptime for all critical business reports.

Trained 8 client teams on using Power BI and Tableau, resulting in a 35% increase in self-service analytics adoption across accounts.

Participated in requirements gathering sessions with stakeholders and translated business needs into technical specifications for development teams.

EDUCATION

BSc (Hons) Computer Science

University of Edinburgh

Edinburgh, United Kingdom

2006 - 2010
