PROFESSIONAL SUMMARY

BI Analyst with 2 years of experience building dashboards and reports for small to mid-sized organizations. I enjoy working with SQL and Power BI to turn raw data into actionable insights that help business teams make better decisions. I'm methodical about data quality and like to understand the 'why' behind the numbers. Currently looking to deepen my skills in data modelling and cloud platforms.

TECHNICAL SKILLS

Databases: SQL Server, MySQL, PostgreSQL

BI Tools: Power BI, Tableau

Programming: Python, VBA

Data Analysis: Excel, DAX, Data Visualization

Other: SQL query optimization, ETL basics, Azure Data Studio

WORK EXPERIENCE

Junior BI Analyst

DataViz Solutions Ltd

www.dataviz-solutions.io

Dublin, Ireland

March 2023 - Present

Created 15+ Power BI dashboards for finance and operations teams tracking KPIs across sales, inventory, and HR metrics

Wrote and optimized SQL queries to extract data from SQL Server databases, reducing report refresh time by 35 percent

Identified and resolved 8 data quality issues in source systems by liaising with database administrators and business stakeholders

Documented data lineage and dashboard specifications to ensure consistency and ease handover to other team members

BI Reporting Specialist

Insight Analytics Group

www.insightanalytics.co

Dublin, Ireland

September 2022 - February 2023

Developed 12 Tableau visualizations for executive leadership covering sales performance, customer acquisition, and operational efficiency

Maintained and updated 20 existing Power BI reports, incorporating feedback from business users and fixing calculation errors

Built an automated Excel macro using VBA to consolidate weekly sales data from 5 regional offices into a single master file

Supported migration of legacy reports from Excel to Power BI, training 8 power users on dashboard functionality

Data Analyst Intern

Clarity Business Solutions

www.claritybiz.net

Dublin, Ireland

June 2021 - August 2022

Extracted, cleaned, and analyzed datasets using SQL and Python to support ad hoc business questions from marketing and product teams

Created daily and weekly performance reports in Excel, highlighting trends and anomalies for stakeholder review

Conducted data validation checks on 3 major ETL processes to ensure accuracy and completeness of imported data

Assisted in designing survey templates and analyzing customer feedback data to inform product development decisions

EDUCATION

Bachelor of Science in Business Analytics

University College Dublin (UCD)

Dublin, Ireland

Graduated: May 2021

Relevant Coursework: Data Warehousing, Business Intelligence Systems, Statistics for Analytics, Database Design
