PROFESSIONAL SUMMARY

I'm a BI Analyst with 12 years of experience building data solutions that help organisations make better decisions. I've spent my career working with large datasets, designing dashboards, and turning raw data into actionable insights. I'm particularly strong in SQL and Tableau, and I enjoy mentoring junior analysts. My work has consistently reduced reporting times and improved data accuracy across teams.

WORK EXPERIENCE

Senior BI Analyst

Whitmore Analytics Ltd

www.whitmoreanalytics.io

Liverpool, United Kingdom

March 2021 - Present

Led the redesign of the company's reporting infrastructure, migrating from legacy systems to a modern cloud-based data warehouse that reduced query times by 65 percent.

Managed a team of two junior BI analysts, providing code reviews, guidance on best practices, and supporting their professional development through regular one-to-one meetings.

Developed and maintained 45 interactive dashboards in Tableau that track KPIs across sales, marketing, and operations, serving over 120 internal stakeholders daily.

Established automated data quality checks using Python scripts that identified and logged data anomalies, reducing errors reported by business users by 73 percent month-on-month.

BI Analyst

DataVault Solutions

www.datavaultsolutions.co

Manchester, United Kingdom

June 2017 - February 2021

Created ETL processes using Informatica to extract data from 12 different source systems and load into a centralised data warehouse, supporting 80 concurrent users.

Built 28 new Tableau dashboards for the finance team that automated monthly reporting cycles, saving 40 hours of manual work per month.

Wrote and optimised over 500 SQL queries in Microsoft SQL Server, focusing on performance tuning and reducing execution times for high-volume data pulls.

Collaborated with business analysts and stakeholders to gather requirements, design schemas, and deliver solutions that addressed specific reporting needs within agreed timelines.

BI Developer

Sentinel Data Group

www.sentineldatagroup.net

Liverpool, United Kingdom

September 2012 - May 2017

Supported the development and maintenance of SQL Server databases serving the insurance and healthcare sectors, ensuring 99.8 percent uptime.

Designed and deployed 12 Cognos reports that automated weekly and monthly business reviews, reducing administrative effort across three departments.

Participated in data migration projects where I wrote validation scripts to ensure data integrity during transfers from legacy systems to new platforms.

Provided technical support to business users on report creation, data extraction, and troubleshooting of data-related issues, maintaining response times under two hours.

EDUCATION

Bachelor of Science in Information Technology

University of Manchester

Manchester, United Kingdom

Graduated June 2012

SKILLS

Technical Skills: SQL Server, MySQL, PostgreSQL, Tableau, Power BI, Python, ETL Tools, Informatica, Cognos, Data Warehouse Design, T-SQL, PL-SQL, Excel VBA, Snowflake, AWS Redshift, Git

Business Skills: Requirements Gathering, Stakeholder Management, Data Modelling, Report Design, Team Leadership, Process Optimisation, Data Quality Assurance
