PROFESSIONAL SUMMARY

Data scientist with 10 years of experience building predictive models and data pipelines for financial services and e-commerce companies. I've spent the last four years at staff level leading technical initiatives and mentoring junior data scientists. I'm passionate about turning messy datasets into actionable insights and have a track record of delivering models that directly impact business revenue. Based in Barcelona, I'm looking for opportunities where I can combine deep technical expertise with cross-functional collaboration.

WORK EXPERIENCE

Staff Data Scientist

DataFlow Solutions

www.dataflow.io

Barcelona, Spain

March 2021 - Present

Led the development of a customer churn prediction model that reduced attrition by 12 percent across 50,000 active users, generating 2.3 million euros in retained annual recurring revenue.

Established MLOps best practices by implementing automated model monitoring and retraining pipelines, reducing time to production for new models from 6 weeks to 10 days.

Mentored a team of 4 junior and mid-level data scientists, conducting weekly technical reviews and defining career development paths that resulted in 2 internal promotions.

Collaborated with product and engineering teams to define KPIs for 7 new features, providing statistical analysis frameworks that improved feature adoption measurement accuracy by 35 percent.

Senior Data Scientist

Nexus Analytics

www.nexusanalytics.co

Barcelona, Spain

July 2017 - February 2021

Built and deployed end-to-end recommendation system for 15 million monthly active users, increasing average session duration by 18 percent and driving a 22 percent uplift in cross-category purchases.

Developed time series forecasting models for inventory optimization that reduced overstock costs by 8 percent while maintaining a 96 percent fill rate across warehouse operations.

Automated data quality monitoring across 40 terabytes of historical transaction data by creating custom validation rules and alerting systems, catching and preventing 12 major data pipeline failures.

Presented quarterly insights to executive leadership on customer segmentation trends, providing actionable recommendations that shaped product roadmap prioritization for three consecutive years.

Data Scientist

IberiaInsight Technologies

www.iberiainsight.net

Madrid, Spain

June 2014 - June 2017

Created classification models to detect fraudulent transactions with 94 percent precision, preventing an estimated 1.8 million euros in annual losses for the payment processing division.

Processed and analyzed data from multiple sources using SQL and Python to build a unified customer 360 dataset serving 25 downstream analytical and operational use cases.

Conducted A/B testing and causal inference studies for marketing campaigns, providing statistical evidence that influenced budget allocation decisions affecting 40 percent of annual marketing spend.

Developed dashboards and reporting infrastructure in Tableau that became the standard analytics layer for stakeholders across finance, operations, and strategy departments.

EDUCATION

Master of Science in Data Science and Big Data Analytics

Universitat Autònoma de Barcelona

Barcelona, Spain

Graduated: June 2014

Bachelor of Science in Statistics

Universitat de Barcelona

Barcelona, Spain

Graduated: July 2012

SKILLS

Machine Learning: supervised learning, unsupervised learning, ensemble methods, neural networks, hyperparameter tuning, model evaluation and validation

Programming Languages: Python, R, SQL, Scala

Data Processing and Visualization: Pandas, NumPy, Scikit-learn, PySpark, Tableau, Matplotlib, Seaborn

Databases: PostgreSQL, MySQL, Redshift, Snowflake

MLOps and Engineering: model deployment, Docker, automated testing, CI/CD pipelines, monitoring and alerting

Statistical Methods: hypothesis testing, A/B testing, causal inference, time series analysis, Bayesian statistics

Cloud Platforms: AWS, Google Cloud Platform

Additional: Git version control, Jupyter notebooks, Linux command line

LANGUAGES

Spanish: Native

Catalan: Native

English: Fluent

French: Intermediate
