PROFESSIONAL SUMMARY

Results-driven and highly motivated Forward Deployed Engineer with a proven track record of delivering cutting-edge solutions in mission-critical environments. Leveraging extensive technical expertise to spearhead cross-functional collaboration and champion innovative approaches that synergistically drive organisational objectives. Passionate about delivering actionable insights through data-driven decision making and establishing dynamic partnerships that enable organisational growth. Dedicated to harnessing technology as a catalyst for transformation whilst maintaining unwavering commitment to operational excellence.

CORE TECHNICAL SKILLS

Cloud Infrastructure: AWS, Azure, Google Cloud Platform

Containerisation and Orchestration: Docker, Kubernetes, Docker Swarm

Infrastructure as Code: Terraform, Ansible, CloudFormation

Monitoring and Logging: Prometheus, ELK Stack, Datadog, New Relic

CI/CD Pipelines: Jenkins, GitLab CI, GitHub Actions, CircleCI

Programming Languages: Python, Go, Bash, JavaScript

Database Management: PostgreSQL, MongoDB, Redis, MySQL

Networking: TCP/IP, VPN, Load Balancing, DNS, Firewalls

Linux Administration: RHEL, Ubuntu, CentOS, Debian

DevOps Tools: Git, Jira, Confluence, Slack integrations

Security: SSL/TLS, OAuth, secrets management, vulnerability scanning

Incident Response and Troubleshooting

WORK EXPERIENCE

Senior Forward Deployed Engineer

Velocity Systems Ltd

www.velocity-systems.io

London, United Kingdom

June 2021 - Present

Deployed and maintained containerised microservices across multi-region AWS infrastructure supporting 50+ enterprise clients with 99.99% uptime SLA. Architected and implemented comprehensive monitoring and alerting systems using Prometheus and ELK Stack that reduced mean time to detection by 65% for production incidents. Led infrastructure modernisation initiative migrating legacy monolithic applications to Kubernetes, reducing deployment time from 4 hours to 12 minutes and improving resource utilisation by 40%. Mentored team of 4 junior engineers on cloud best practices, infrastructure as code, and incident management whilst establishing knowledge base reducing onboarding time from 6 weeks to 2 weeks.

Forward Deployed Engineer

Nexus Cloud Solutions

www.nexus-cloud.co

Manchester, United Kingdom

March 2019 - May 2021

Implemented automated CI/CD pipelines using Jenkins and GitLab CI for 15+ development teams, reducing deployment failures by 58% and enabling 200+ deployments per day across staging and production environments. Developed comprehensive Terraform modules and Ansible playbooks to codify infrastructure for AWS and Azure cloud environments, reducing manual configuration time by 70% and improving disaster recovery capabilities. Established production monitoring framework using Datadog integrating with PagerDuty on-call rotations, resulting in 45% faster incident response and 30% reduction in customer-reported issues. Collaborated with security team to implement infrastructure hardening standards including vulnerability scanning, secrets management, and compliance automation across 100+ servers.

DevOps Engineer

TechCore Engineering Ltd

www.techcore.net

Bristol, United Kingdom

September 2016 - February 2019

Managed and optimised AWS infrastructure supporting 8 microservices serving 2 million monthly active users with auto-scaling policies achieving optimal cost-to-performance ratio. Designed and implemented Docker containerisation strategy for legacy applications, enabling consistent deployments across development, staging, and production environments with 90% reduction in environment-related bugs. Built centralized logging solution using ELK Stack processing 500GB daily logs across 50+ application servers, providing actionable insights for debugging and capacity planning. Provided on-call support during business hours and participated in on-call rotation for critical production issues, maintaining 98% uptime SLA and resolving 95% of incidents within SLA windows.

EDUCATION

Bachelor of Science in Computer Science

University of Bristol

Bristol, United Kingdom

Graduated: June 2016

CERTIFICATIONS

AWS Certified Solutions Architect Associate

Certified Kubernetes Administrator (CKA)

HashiCorp Certified: Terraform Associate
