PROFESSIONAL SUMMARY

Results-driven and highly motivated data professional with a proven track record of leveraging cutting-edge analytical methodologies to spearhead actionable insights across cross-functional teams. Passionate about delivering value through data-driven decision making and championing mission-critical initiatives that synergistically align with organisational objectives. Dynamic and innovative analyst committed to driving dynamic outcomes and fostering a culture of continuous improvement through advanced analytical frameworks and strategic data interrogation.

WORK EXPERIENCE

Junior Data Analyst

Synapse Data Ltd

Manchester, United Kingdom

January 2024 - Present

Developed and maintained automated data pipelines using Python to process and validate 500,000+ daily records, reducing manual data entry time by 35%

Collaborated with cross-functional teams to identify key performance metrics and created interactive dashboards in Tableau tracking real-time business operations

Conducted exploratory data analysis on customer segmentation datasets, uncovering three new market opportunities that influenced marketing strategy decisions

Documented data quality issues and implemented corrective measures, improving overall database accuracy from 94% to 98.5%

Data Analyst

Deloitte

Manchester, United Kingdom

www.deloitte.com

October 2023 - December 2023

Assisted senior analysts in designing and executing SQL queries to extract data from enterprise databases supporting 20+ concurrent reporting projects

Performed statistical analysis on sales data using Python and pandas, identifying seasonal trends and presenting findings to stakeholder committees

Created data visualisation reports using Power BI to communicate complex findings to non-technical business users, resulting in improved decision-making processes

Participated in agile sprint planning sessions and delivered weekly status updates on data validation and cleansing activities

Data Analyst Intern

Manchester Digital

Manchester, United Kingdom

www.manchesterdigital.com

June 2023 - September 2023

Extracted and analysed datasets from multiple sources using SQL queries to support business intelligence reporting initiatives

Assisted in creating data dictionaries and documentation for five major data warehouse projects to ensure compliance with data governance standards

Performed data quality audits identifying inconsistencies and duplicates, documenting findings in detailed audit reports

Supported the analytics team in ad-hoc analysis requests and contributed to monthly performance review documentation

EDUCATION

Bachelor of Science in Data Science

University of Manchester

Manchester, United Kingdom

Graduated: June 2023

Grade: 2:1

TECHNICAL SKILLS
