PROFESSIONAL SUMMARY

I'm a junior BI analyst with just over a year of hands-on experience in data analysis and reporting. I got into this field because I genuinely enjoy turning raw data into insights that actually help people make better decisions. I'm comfortable working with SQL and Power BI, and I'm always keen to learn new tools. I'm based in Bristol and looking to grow my technical skills in a collaborative environment.

TECHNICAL SKILLS

SQL (T-SQL, basic query optimization)

Power BI (DAX, data modeling, report design)

Excel (advanced formulas, pivot tables, VLOOKUP)

Python (pandas, basic data manipulation)

Data Warehousing (ETL concepts)

Database Management (SQL Server)

Git and version control

Tableau (basic)

Google Analytics

WORK EXPERIENCE

Junior Business Intelligence Analyst

DataViz Solutions Ltd

www.dataviz-solutions.co

Bristol, United Kingdom

November 2022 - August 2024

Created 15+ Power BI dashboards for stakeholder consumption, reducing monthly reporting time by 8 hours per team member

Developed SQL queries to extract sales and customer data from legacy systems, supporting ad-hoc analysis requests from finance and marketing departments

Assisted in building an automated ETL pipeline that consolidated data from three separate databases into a centralized data warehouse

Documented all dashboard specifications and data dictionaries to ensure team members could maintain reports during my absences

Data Analyst

Insight Analytics Group

www.insightanalytics.io

Bristol, United Kingdom

August 2022 - January 2023

Performed data quality checks on incoming datasets and identified inconsistencies that prevented 12 corrupted records from reaching production reports

Built Excel-based financial models to forecast quarterly revenue, presenting findings to senior management quarterly

Supported the migration of legacy reporting from Excel to Power BI, training 6 team members on new platform functionality

Created documentation and training materials for 5 new analytical processes

Business Intelligence Support Specialist

TechCore Solutions

www.techcore.net

Bristol, United Kingdom

January 2022 - October 2022

Assisted senior analysts with data extraction and transformation tasks using SQL and Python scripts

Maintained and updated existing Power BI reports, fixing calculation errors and responding to user change requests within 48 hours

Compiled and analyzed monthly KPI reports for distribution to department heads across the organization

Provided frontline technical support to end users experiencing dashboard access or refresh issues

EDUCATION

University of Bristol

BSc Mathematics with Statistics

Graduated: June 2021

Bristol, United Kingdom

CERTIFICATIONS AND PROFESSIONAL DEVELOPMENT

Microsoft Power BI Desktop Fundamentals (In Progress)

Google Analytics Individual Qualification Certificate - 2023
