PROFESSIONAL SUMMARY

Full Stack Engineer with 2 years of hands-on experience building web applications using modern JavaScript frameworks and Python backends. I enjoy working across the entire stack, from database design to responsive frontends, and I'm most productive when collaborating with small teams on real problems. Currently based in Birmingham and looking to deepen my expertise in cloud infrastructure and testing practices while contributing to meaningful projects.

WORK EXPERIENCE

Full Stack Developer

TechVision Solutions Ltd

techvisionsolutions.co

Birmingham, United Kingdom

March 2023 - Present

Developed and maintained 5+ full stack features for a SaaS platform serving recruitment agencies using React and Node.js

Implemented RESTful APIs with Express.js and PostgreSQL, handling authentication and complex business logic

Collaborated with product and design teams to deliver user-facing features on a two-week sprint cycle

Debugged and optimized existing codebase, reducing API response times by approximately 35% through query optimization

Software Engineer

DataStream Analytics Inc

datastream-analytics.net

Birmingham, United Kingdom

September 2022 - February 2023

Built data visualization dashboards using React and D3.js to display real-time analytics from Python backend services

Deployed Docker containers to AWS EC2 instances and managed infrastructure as code with Terraform

Integrated third-party APIs including payment processing and marketing automation platforms

Wrote unit tests and integration tests using Jest and pytest, achieving 78% code coverage across backend modules

Junior Developer

Nexus Digital Co

nexus-digital.io

Solihull, United Kingdom

June 2021 - August 2022

Contributed to an inventory management system frontend built with Vue.js and a Django REST API backend

Worked with LangChain to build conversational AI features into our customer support tools, improving response handling significantly

Created and maintained SQL database schemas for multiple microservices using PostgreSQL

Fixed bugs and addressed technical debt in legacy code, completing approximately 2-3 tickets per sprint

EDUCATION

Bachelor of Science in Computer Science

University of Birmingham

Birmingham, United Kingdom

Graduated: June 2021

Grade: 2:1 (Upper Second Class Honours)

TECHNICAL SKILLS

Frontend: React, Vue.js, HTML5, CSS3, JavaScript (ES6+), Responsive Design

Backend: Node.js, Express.js, Python, Django, REST APIs, JWT Authentication

Databases: PostgreSQL, MySQL, MongoDB

DevOps and Tools: Docker, AWS (EC2, S3, RDS), Terraform, Git, GitHub, CI/CD pipelines

Testing: Jest, pytest, Mocha

Other: Webpack, npm, Linux command line, Agile/Scrum, API integration

CERTIFICATIONS

AWS Certified Cloud Practitioner

Issued: August 2022
