PROFESSIONAL SUMMARY

Experienced data analyst with 14 years of progressive responsibility in transforming complex datasets into actionable business insights. I've spent the last decade building analytical frameworks that have directly influenced strategic decisions across financial services and e-commerce sectors. My background combines strong SQL expertise with Python scripting and a practical approach to mentoring junior analysts. I'm genuinely passionate about data quality and have consistently delivered projects that balance technical rigor with business pragmatism.

WORK EXPERIENCE

Senior Data Analyst

Quantmetrics Ltd

www.quantmetrics.io

Edinburgh, Scotland

March 2021 - Present

Developed and maintained 47 automated reporting dashboards serving 12 business units across the organization, reducing manual reporting time by 38 hours weekly. Designed and implemented a data validation framework that identified and corrected over 15,000 historical records with quality issues affecting executive decision-making. Mentored 5 junior analysts in SQL optimization and statistical analysis, with 3 subsequently promoted to mid-level positions. Led cross-functional initiatives with Finance and Operations to establish standardized KPIs, resulting in improved alignment between departmental performance metrics and corporate objectives.

Lead Data Analyst

Finvest Solutions plc

www.finvest.co.uk

Glasgow, Scotland

June 2015 - February 2021

Constructed complex SQL queries and ETL processes that consolidated data from 8 disparate banking systems into a unified analytical warehouse, enabling real-time risk reporting for credit portfolio management. Developed advanced statistical models using R and Python to predict customer churn, achieving 82% accuracy and informing retention strategies that protected GBP 2.3M in annual revenue. Created comprehensive documentation and training materials for analytical standards that were adopted across 3 regional offices with 60+ analysts. Presented quarterly findings to senior management and board-level committees, translating technical analysis into business recommendations.

Data Analyst

Progressive Digital Group

www.progressivedigital.net

Manchester, England

September 2010 - May 2015

Managed daily data extraction, transformation, and loading processes for e-commerce platform serving 500,000+ active users, ensuring data accuracy and 99.8% system uptime. Built interactive Tableau dashboards tracking customer acquisition costs, lifetime value, and channel attribution across 12 marketing channels. Conducted ad-hoc analysis on product performance data, identifying SKUs underperforming by region and recommending inventory reallocations that increased sales by 12%. Partnered with product team to design A/B testing frameworks and analyze experimental results, contributing to successful launch of 6 new features.

EDUCATION

BSc Honours in Statistics

University of Edinburgh

Edinburgh, Scotland

Graduated: June 2010

TECHNICAL SKILLS

SQL (T-SQL, PostgreSQL, MySQL) - Advanced

Python (Pandas, NumPy, Scikit-learn) - Advanced

R (ggplot2, dplyr) - Intermediate

Tableau - Advanced

Power BI - Intermediate

Excel (VBA, advanced formulas) - Advanced

ETL Tools (SSIS, Informatica) - Intermediate

Google Analytics - Intermediate

Statistical Analysis and Hypothesis Testing - Advanced

Data Visualization and Dashboard Design - Advanced

Database Design and Optimization - Intermediate

Git and Version Control - Intermediate

CERTIFICATIONS

Google Data Analytics Professional Certificate - 2019

Microsoft Certified: Data Analyst Associate - 2021
